

Where do I edit the New Release Islandora documentation?

- Login with your Duraspace Confluence account to:
<https://wiki.duraspace.org/pages/viewpage.action?pageId=61571237> - then find the section you're working on
- Get a login from Melissa Anez (manez@islandora.ca) if you don't have one.

How do I sign up to edit the New Release Islandora documentation?

- For the Docathon - if you are working on a section, please put your name beside the section below.
- When you are done, change the title of the page to indicate that it is ready for review, with your initials. (i.e. Introduction - Ready for Review (KS))

Review New Release documentation?

- Anyone can sign up to review the documentation - put your name in the "Reviewed By" column and mark it complete when finished.

@todo

- Modify footer to contain links to Docgroup contacts. Add this information to "What's not in this guide" in the Introduction (placeholder is XXXXX)
- Modify release notes to be in keeping with the release.
- Find out more about CI to put in documentation or on Wiki
- Create new Virtual Box installation documentation on the Islandora website and link to the "Accessing Islandora" page
<https://wiki.duraspace.org/pages/viewpage.action?pageId=61571238> - SAM- In progress
- Add section about Islandora object states - link to "how to purge an object" page?
<https://wiki.duraspace.org/display/ISLANDORA7131/How+to+Purge+an+Object> - KIRSTA
- Add section about creating custom content models? This is much more integrated into the SP development, and maybe this isn't the place for it.
- Delete or rewrite this page:
<https://wiki.duraspace.org/display/ISLANDORA7131/Creating+Custom+Content+Models+-+Delete+or+Rewrite>
- Add link to presentations on Islandora.ca website- Sam- In Progress
- Tutorial for managing deleted objects?
- Tutorial for derivatives and regeneration?

Splitting up Documentation :

If you notice any discrepancies, typos, or have any suggestions for improvement, please edit our wiki, or forward your feedback to islandora@upei.ca. Community involvement keeps the

project strong. To learn more about contributing to the improvement of Islandora, please review [Chapter 15 - Islandora Community \(Developing Islandora\)](#).

This version of the documentation refers to the Drupal 6/Fedora 3 version of the Islandora module. Older versions are no longer supported.

Gaps recognized by the group:

- High level discussion of Islandora's CMA (modify <http://islandora.ca/content/anatomy-content-model>)
- Installation & Upgrade paths
 - Tips for multiple environments
 - Solr & Gsearch
- Problem with documentation headers in current docs.
- (by) Any thoughts about adding FAQs for quick access to highly desired information?
- Building a Content Model
- Building a Solution Pack
- Batch Edits using cURL
- Custom Indexing in Solr
- Building Solr Autocomplete fields
- More evolved troubleshooting section (with some common gotchas from the list archives) - installing across boxes.
- Big thing! --> VM documentation does not match Vagrant. Files are in some strange places (where is solr.xml?).
