

# *Mythical Map Makers*

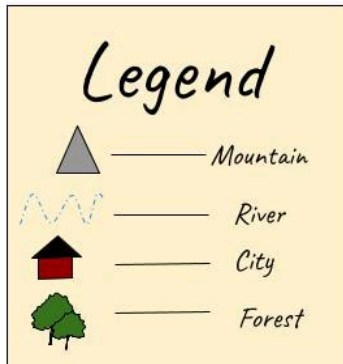

## Materials

- A piece of paper
- Something to draw with. You can use a normal pencil, colored pencils, markers, or whatever else you want.

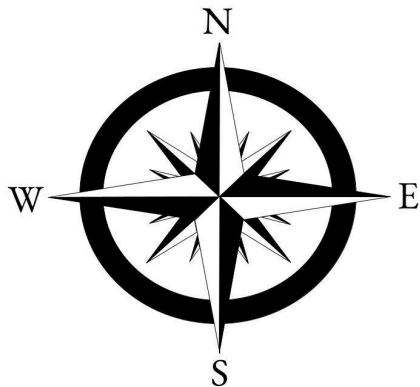

## Instructions

- You are going to make a map of a made-up place.
- First, draw out the shapes of continents, islands, borders, and oceans.
- Add some landforms. Add mountain ranges, rivers, forests, deserts, and whatever other natural landmarks you want.
- Add some cities and towns.
- Add some roads and paths between cities and towns
- Name and label your towns and cities. You can also label important natural features, like really big mountains or forests

- Add a legend. On a map, a legend is used to tell people how to read the map. There is where you explain all of your symbols, like triangles for mountains, blue lines for rivers, and green for forests. Here is an example.

- 
- Add a compass rose. A compass rose is what tells you what direction is north on a map. Here is an example

- 
- If you want to, add color! Add any other finishing touches you want to!
