Mars Face Conspiracy Revealed

NEARSIGHT INSTITUTE

OFFICIAL REPORT ON THE NASA/JPL MARS FACE PHOTOS

ISSUED APRIL 7, 1998

FOR IMMEDIATE RELEASE --

Detailed analysis of the new photo of the Cydonia region of Mars by the technical staff of the Nearsight Institute has revealed the following.

There is clear evidence that the Mars Face Anomaly has been destroyed, most likely by nuclear explosions. Analysis of sand and wind patterns, erosion, and special Non-Remote Viewing leads us to state categorically that this occurred on August 14th of 1997.

It is our belief that in their intense desire to hide the evidence of advanced civilization on Mars the government of the USA, probably with the help and collusion of other major world governments dispatched a fleet of nuclear missiles to obliterate the site well before any possibility of clear imaging.

Doubtless this plan was developed under the control of the Illuminati, the New World Order and MJ-12, and it is unlikely that even President Clinton is aware of this deception.

We must all rise up and denounce this senseless destruction of a major exoarcheological site.

Bob Shell, Director

Nearsight Institute
