Loom Set Up Instructions:

1. Go to https://www.loom.com/ and either sign in with google or create a free account
2. Click download as a browser extension OR desktop app (both will work). To download as a browser extension, you need to be using Chrome

3. Go to your toolbar and click the red Loom icon - be sure this document is open to the second page with the questions

4. Select **"Screen + Cam"** to see the questions on your desktop while you record or just **"Camera"** if you want to be full screen and hit record. Make sure you set your Loom for multiple views
5. Please set your video to not receive email notifications each time your video viewed
6. You'll have 3 seconds to move your video bubble to where you want it on the screen
7. Hit any key to stop recording
8. Loom will give you a link for your recording immediately
9. Once you're satisfied with your recording, copy/paste your completed Loom link to **the job application -there is a designated box for it at the bottom of the application.**
