## WHAT'S WORKING IN 2024?

Pre selling seems to be working best where you build up some trust first with your prospects by providing some value then promoting the product. My audience is smart and won't fall for scammy promotion methods. These are the ways that affiliates are making money with the Eat Well to Age Well:

**INSTAGRAM page about Eating Well.** A lot of sales are coming from Instagram right now. Post photos of healthy food here and put a link in your bio to a presell page or bridge page that links to the sales page. IG does not allow you to put affiliate links directly in your bio. **\*IMPORTANT: you cannot use my official logo, face, or any variation of "Eat Well to Age Well" as your instagram name or profile picture. It must not look like you are the owner of the product. If you are caught doing this, you will be removed from the affiliate program immediately.**

**Facebook page about Eat Well to Age Well with links in posts to the sales page.** \*Please note that you will get your FB account banned trying to run paid ads directly to my sales page.

**Optin Page for Eat Well to Age Well Recipes PDF specifically for weight loss.** Create a simple Word document with a few of OUR recipes (contact us for a recipe pdf) and export it as a PDF. Set up your optin page to redirect them, after submitting their info, to a presell/bridge page or directly to the sales page. Also put affiliate links in PDF.

**Email Follow Up.** A lot of sales are coming from email lists. After getting their emails with your optin page, follow up with them and provide valuable smoothie or weight loss related content, build a good relationship with your list and this is an easy sell.

**Blog Article.** Use a link at the end of the article to go to either the presell page, sales page, or your own smoothie recipe optin page.

**YouTube.** Videos about health & weight loss, eating healthy as we age, with links in the description to the sales page. Or Eat Well to Age Well review videos linking to the offer.
