

**We are taking steps to
help kids have better
childhood memories
and we need your
support...**

Dear friends,

We all recognize how much our childhood memories always put a smile on our faces whenever we talk about them, think about them, or see something that reminds us of those moments. We also see the joy on our children's faces when they play and the emotions they display when they receive that long-awaited toy they have been talking about for ages.

Unfortunately, not every child has had or has the privilege to experience such moments, which we know significantly impacted the person we grew up to be. Not everyone has had the pleasure to read that favorite story, have those shoes and clothes they always wanted, or play with that toy nobody was allowed to touch. There are **single mothers with disabilities** who dream to give their children a life of purpose where they would have an impact on their community.

It is for that reason that we are **collecting items like shoes, clothes, books, and toys** to give to kids from the age groups of **1-year-old to 5 years old** and **6 years old to 12 years old**.

We are planning an event where ex-pat kids will have the opportunity to meet their beneficiaries and play with them. **We need YOUR support to contribute to equal access to opportunities that children of single mothers with disabilities obtain.**

P.S:

- **No money** donation is allowed, if need be, one can buy the **aforementioned items** and donate.
