

# Democratic Party of Fremont

## Election Rally

**Scribba walks up to the stand after being introduced by the Mayor. He's greeted with roaring applause.**

"HELLO THE PEOPLE OF FREMONT!!!" He exclaims.

"It's so good to visit the great state of Fremont. I love the culture and the vibe. You're all amazing and wonderful people."

"This state is an example of what Democratic Leadership can bring under a legislature in opposition. Governor Greggor has worked tirelessly with his Republican and Green counter-parts to ensure legislation that benefits you directly is signed into law.

"This special relationship is why I support Greggor for another term. He's the man reaching across both aisles getting work done."

"He doesn't have pie in the sky ideals and dreams. He has hard evidence of his leadership. He isn't trying to Bluewash the Republican Party and claiming their successes as his own."

"Greggor is a very outspoken individual. He loves to talk and he talks boldly. His love for America is unending."

"If I can say one more thing about him before I bring him on stage, it's that Greggor cares deeply about the issues facing this state. His first term wasn't enough to get everything done and he needs a second."

"Will you join me in bringing your next governor onto the stage?"
