

Wall Street Securities firm, Wedbush, announces it's investment into Bitcoin Marketplace [Buttercoin](#).

Investors

- Wedbush Securities
- Google Ventures
- Reddit Co-founder Alexis Ohanian
- Y Combinator
- And more

Why this is important

- Wedbush is the first Wall Street firm to publicly announce an investment into a Bitcoin startup.
- A reliable domestic Bitcoin Marketplace is foundational to the US Bitcoin Ecosystem.
- Buttercoin is the only US Bitcoin Marketplace with US Banking & Payment Rails.
- Buttercoin clears USD <-> Bitcoin transactions in 1 business day, 10X faster than international exchanges.

Buttercoin customers / partners include

- Bitcoin Merchant Processors, like [Bitpay](#)
- Bitcoin Mining Operations, like [Mega Big Power](#)
- US Bitcoin Wallets, Traders, and Institutions buying / selling large blocks of Bitcoin off market

Testimonial

Dave Carlson, CEO [Mega Big Power](#), one of the largest Bitcoin Mining Operations in North America

"Buttercoin has worked really well for me, here's why..."

- **Speed**
 - Super fast turnaround of Bitcoin into USD is key to my business strategy, with Buttercoin I can get payouts in 1 day, overseas exchanges can take 2+ weeks.
- **Volume**
 - Buttercoin handles large volumes (both on and off market) which allows me to trade Bitcoin in a responsible manner without moving the price of Bitcoin down when I want to trade large volumes.
- **Great Experience**
 - Buttercoin is reliable, trustworthy, and has excellent trade execution."

Activity

- Buttercoin is currently processing up to \$1MM / day of Bitcoin volume.

Awesome Stuff about Buttercoin

- 10x Faster for BTC -> USD than overseas Bitcoin Exchanges
- Full reserve
- Beautiful product, easy to use
- Rock solid security with regular audits
- Open source trade engine (for the community to vet & improve)

Advanced Bits

- Limit Orders
 - Buyers and sellers can fine tune the specifics of each order
- Off Market Block Trades
 - Buyers and sellers can trade large blocks at a fixed price
- Developers
 - Powerful & Flexible API available free to developers
- Speed
 - Millisecond trade execution allows for real time trading
