

FHW Group Litter Picks - Normal Arrangements

We usually have 2 each month, currently with on average c 5/6 Friends attending. It is modestly worthwhile and a pleasant social as well.

The dates, times and locations for the month are set out in the email sending out the FHW News to Friends on the 1st of each month.

To save email clutter no reminders repeating those details will be sent out.

Normal arrangements will apply unless otherwise communicated.

Please bring your own litter picker and gloves would be useful. Our green support cart will have some spare equipment, council grey litter sacks and holding hoops.

Potentially attending individuals make their own judgment call about weather cancellation for themselves, close to their set off time.

FHW do not have comprehensive individual mobile phone details and it's too late to generate emails. Individual responsibility has worked well enough to date and is consistent with FHW principles.
