

Dhruv Vadodariya

Full Stack Developer

dhruvvadodariya03@gmail.com

Portfolio: vdhruv.dev

About me:

I am a self-taught Full Stack Developer, I love the idea of self-learning, and in addition to that, I am also a quick learner because of my adaptive nature.

It's been more than 6 years since I dived into this vast industry and since then I have been improving my skillset with each passing day. Currently, I am working as a full-time freelancer.

Skills:

Web Technologies	Javascript, PHP, Python, WebSockets
Frameworks	Django, Flask, Laravel, Vue Js, React Js, Node Js, TypeScript, Bootstrap, TailwindCSS
Databases	MySQL, Postgresql, Redis, MongoDB
Development Tools	Git, GitHub, GitLab, Bitbucket, Docker, PhpStorm, WebStorm, PyCharm, Cursor, Claude Code, Postman, Figma, Jira, Slack
Operating Systems	macOS, Linux Ubuntu, Windows
Non-Technical	Quick Learner, Adaptability, Willingness, Team Management
Cloud Platforms	AWS, Digital Ocean, Google Cloud, Bare Metal Servers

Experience:

Full Stack Developer

Lightfoot Global Media Inc - USA

December 2022 - Present

We developed scalable web applications using **Laravel, Django, React.js, Node.js, and TypeScript** while enhancing UI/UX to **reduce bounce rates by 25%**. By configuring Nginx and optimizing Node.js scripts, we achieved **2500 requests per second**. Additionally, we improved database performance with optimized queries, indexing, and sharding for faster and more scalable solutions.

Full Stack Developer

VisitorChat - England

April 2022 - Nov 2022

We developed and maintained a service-driven architecture using **Laravel, Node.js, Vue.js, and TypeScript** for a live chat system. Optimized Node.js socket services for reliable real-time data transfer and reduced latency. Integrated **AWS for scalable server management and log monitoring** while tuning PostgreSQL queries to enhance performance and speed.

Full Stack Developer

Expresstech Systems - India

September, 2021 - Apr, 2022

We built and maintained a robust Shopify application using **Laravel, React.js, AWS, and PostgreSQL**, ensuring seamless performance. Developed a data parsing algorithm to generate marketing feed files for Google and Facebook. Optimized high-frequency queries with Redis caching to enhance response times and user experience. Managed **AWS services like SQS, CloudWatch, and EC2** for reliable and scalable infrastructure.

Full Stack Developer

Line4Solutions - India

July 2020 - September 2021

We designed and developed a **virtual gaming platform** featuring casino games, card games, slots, and other virtual games using **Laravel, Vue.js, React.js, Node.js, Python, and MySQL**. I managed server infrastructure and implemented **CI/CD pipelines with GitHub** for seamless deployments, created and optimized **gaming algorithms** for fair play and engaging experiences, and structured scalable databases to ensure high performance for gaming operations.

Laravel Developer

Sassy Infotech - India

August 2019 - July 2020

We developed an eCommerce solution that allowed users to create, design, and host websites with custom domains using **Laravel, Node.js, and MySQL**. I also designed customizable eCommerce themes to enhance user experience and branding, integrated multiple payment gateways for secure transactions, and optimized backend processes to enable **website deployment within minutes**, ensuring high efficiency and reliability.

Laravel Developer

Surat Infotech - India

December 2018 - August 2019

I designed and developed a custom management and maintenance tool using Laravel and MySQL, streamlining operations and ensuring efficient data management.

Educational Details :

- B.Tech with specialization in Computer Science.
Marwadi University, Gujarat
- Certified Laravel Developer
[Certificate](#)

Declaration:

I solemnly declare that the information in this resume is accurate to the best of my knowledge and belief.
