

Geese Guardians Challenge 1

Learning Outcomes

I can read and research a topic and make notes in my own words.

I can present information to inform others in the form of a poster

I can talk about what I have learned with others.

I can explain the impact of climate change on a species.

Skills and Attitudes

Choose the three main skills that you think you will be using/developing in this challenge and write them on the card given.

On the back note down what these skills will look like and sound like.

Challenge:

To be a Goose Guardian school we need to show that we know all about the geese in our local area. We need to be able to share this with others in our school, the RSPB and with the wider community. One way we can share this is by creating a wall display about our selected Goose type.

Task:

You should:

- Research your chosen goose type (from your task with Mrs Little)
- Take notes
- Share your learning with the other members of your group
- Sort your group information under different headings
- Create a group poster sharing your learning about your goose type

You have until 2:30pm today to complete the poster.

Product Criteria:

The poster should include information about at least the following:

- Appearance
- Diet
- Roosting grounds
- Migration patterns
- Young
- Behaviour/lifestyle
- Numbers/data that come to Gartocharn
- Climate change effects

Everyone in the group must be actively involved in researching and creating the poster.
