

Welcome to

NG speedrun notes. By Offy/Shinoa/TheEndd0 <one person btw

**Shit is finally up to date.**

I highly suggest using my PB as a reference since explaining fights on paper is difficult if you have a small amount of knowledge about the game's battle system. You're also free to join the Tales of speedrun discord and ask questions there

- Denore bottle

- Best door cutscene in gaming history

### **Guardian**

#### During tutorial

- BS > sidestep > BS > spin > BS > spin > BS > spin (If you get a stun before 3rd spin you can do BS > spin > BSMA. If you get a stun after 3rd spin then just BSMA)

#### After MA

- BS with Velvet, Laphi, Rokurou

- Take Guardian's BS damage
- BS > spin > sonic thrust (keep repeating this until he's dead)
- Use Eizen's BS when he's stunned

### [Zekson port]

- Do expedition tutorial
- **Strategy menu:**  
Everyone focus **strongest enemy**.  
**Defense only** (optional but you will need to do defense command in majority of fights if you don't put them on defense in strategy).  
**Blast do not use**  
**BS do not use** on Velvet and Laphi
- Open **bronze** chest with 720 gald
- Buy Calcite boots and Calcite garment (Calcite garment might not appear in shop but you can grab it in Loegres **silver** chest. Still timeloss sadly)

### [Loegres]

- Open **silver** chest with Calcite garment (If you don't have one from Zekson shop)

- Kill 2 knights with 2 snek ladies (use attack command)
- Talk to lads
- Jump up to get **bronze** chest

### [Loegres]

- Pick ambush mission (**mission order here now does not matter** so you can go for Elenoar first if you feel like it)
- Assign Twin Whip 2-1 for Velvet

### [Outside]

- Kill gorillas (use attack command)

### [Loegres]

- Pick the only mission that is left
- Inoph bottle to Zekson
- Open **bronze** chest with Amber fragment in the warehouse
- Beat up Eleanor

### [Sewers]

- Open **bronze** chest with gald
- **Trigger the warp point** before climbing up the ladder

## Eleanor church

### Phase 1

- Dump souls on Eleanor with Roku and Laphi
- Get stun on her and BSMA

### Phase 2

#### Tutorial

- Equip Shock ward
- Hold guard switch Magilou in
- Don't hold guard switch Velvet in
- Use Twin wip to proc chain. Highly suggested to do BS > twin wip > BS otherwise combo is likely to drop.

### [Before Zaveid and Eizen fight]

- Open bronze chest with Denore bottle before triggering gate cutscene
- Disable AI artes except **Spirit beads**(Magilou)
- Assign **Spirit Beads**(Magilou) and **Mirage Dance**(Rokuro) **manually**
- Put Magilou on **strong enemies, close combat, no holding back, blast not use**
- Assign rising moons after twin wip. **Twin wip > Rising moon x 3**

## Eizen and Zaveid

- Dump souls on Zaveid
- Start on Zaveid
- Searing > Spin > Searing >  
BS > Spin > Spin > **(Hold BS button while doing the spins)**  
BS > Twin wip > Rising moon >  
BS > Spin > Rebuttal > Spin > BA >  
BS > Spin > Rebuttal > Spin > MA **(NOT BSMA we need souls for Eizen)**
- AI on attack after Zaveid's defeat
- On Eizen keep doing Searing > Spin > HR loops until burn. **When Magilou applies her debuff on Eizen then put AI on defense.**
- Once you get a burn switch to BS > Spin > HR > HR loops

Honestly this strat is kinda hard to explain as short as possible so I really suggest watching it on my PB runs

### [Artorius Throne]

- After activating seals use Denore bottle
- Once you go up for Artorius there's a **Lavender** on your right. It's okay if you miss it
- **Gold** chest on the right when going up the stairs(Shell Shredder) **DO NOT MISS THIS**
- During Artorius fight use Velvet's BS at the end of the fight for BG. Also use Magilou's BS for BG gain for her.

### [Earth temple]

- Unequip all Magilou gear

- **Turtle shop**
- Dismantle bronze scrap gear but **NOT SHELL SHREDDER**
- Enhance  
+3 Shell Shredder
- Equip it on Velvet
- Beat up Eleanor for the fucking last time

### **Eleanor 3**

- Spin > HR > Spin
- Dodge for a soul and grab it
- Sear > Spin > HR > Spin. Do this twice
- Actual combo starts now  
Sear > Spin > Sear > Spin  
BS > Spin > HR > Spin > BA  
BS > Spin > HR > if stun BS else BA  
Finish off with spins and HRs.
- Video example: [here](#)
- Keep in mind stun timings are not consistent so the fight goes differently most of the time.

### **[After Eleanor]**

- Talk with Laphi
- Rest

### **[Outside]**

- Switch Eleanor > Velvet
- Artes  
Turn off Elenoar's arts. **Mega sonic thrust** 2-1 Velvet
- Unequip Elenoar's gear. Fluoric garment Velvet.
- Strategy  
Eleanor strong enemies, blast not use

### **1 Soul guy**

- Dash > Dump soul Elenoar
- Switch Elenoar > Velvet > Eleanor BS > Velvet
- If he's in mid air still wait a little till he's closer to the ground  
Spin > Sear > BS > Spin > Sear > Spin > Sear > BA(dump souls with AI)  
BS > Spin > HR > Spin  
BS > Spin > Spin
- BSMA when you get a stun. Stuns should happen after dumping souls with AI. Main reason why we delay them.

## **Kurogane**

- Dump souls with everyone
- Switch Elenoar > Velvet
- BS > Sear > Spin > Sear
- If spin stunned then do 3rd searing edge
- BA(Manually switch to Magilou and use Spirit beads and switch back to Velvet)
- If you did get a stun before and did 3 searing edges then
- BS > Spin > HR > HR loops
- If you haven't done 3 searing edges yet do the 3rd on the stun then
- BS > Spin > HR > HR loops
- When he's about to soul burst be sure to have 3 souls and force your BA. During BA switch to Magilou and manually use spirit beads
- Continue with the loops until he's dead

## **[Cave]**

- **Check turtlez shop**
- Buy **Fluoric blade** if there's one

## **Shigure in cave**

- Guard
- Once he finishes his combo(the ending move usually is 2 cleaves (Arte is called Silence) BS > Mirage dance(stun) > BSMA
- Sometimes you won't get a stun on first Mirage(pretty low chance) so I suggest training your reaction time on this one.
- Before triggering cutscene with Kurogane and Rokuro open **gold** chest with Worn spear. Hug the right side to avoid triggering the cutscene

## **[After talking to your group]**

- Switch Velvet out with Eizen

## **Intruders**

- Dump souls on the big knight
- Switch Velvet in with Magilou
- Only focus the big knight
- When knight is <40% hp you can put AI on attack

## **[Before Shigure docks]**

- Switch Eizen out with Magilou

## **Shigure docks**

- Dump souls with Magilou and do double switch blast

- Last switch needs to be an actual switch blast without guarding so Velvet jumps on Shigure
- BS > Wait
- When he's doing counterattack 2x Searing >
  - BS > Searing > Spin > HRI >
  - BS > Spin > HRI > HR>
  - BS(switch to Eizen uses his BS, switch back) > Spin > HR > HR
  - BS > Spin > HR > HR > BSMA
- Stun timings can be a bit different sometimes especially if you get a burn.

### [Reneed]

- Rest in inn. Stupid sexy Rokuro scene.
- **Shop time**
  - 4 x Denore bottles
  - 9 x Inoph bottles

### [Warg Forest]

- Open **bronze** chest with Fluoric fragment
- Open **bronze** chest with Gald
- Beat up 2 guys
- Open **gold** chest (cass belt) before switch

### [Before Rhino beetle]

- Switch Eizen out with Rokuro
- Switch Magilou out with Eleanor
- Artes
  - Turn off Laphi's artes

### Rhino beetle

- Dump souls with everyone
- Double switch with Eleanor
- AI on attack
- This fight is different every time because you want Rokuro's Shockwave slash debuff. If you don't get his debuff then do a long enough combo to one shot the boss.
- After proccing chain you usually just do
  - BS > Spin > Rebuttal > Repeat
- Video example: [here](#)
- You can put AI on def once you see Rokuro apply his debuff and then manually use Magilou's spirit beads to proc chain. The risk of that is beetle might drop out until Magilou arrives...

### [After the fight]

- Use the warp point
- After cutscene with 2 guards use denore bottle
- Meet up with Zaveid
- Inoph bottle to Reneed
- After cutscene in Reneed Inoph bottle to Reneed

- Equip Halbert on Elenoar

### Wyverns

- Dump souls with everyone
- Double switch with Laphi
- AI on attack
- Switch blast Eizen in
- Focus wyverns that Rokuro is focusing
- Use Eizen to proc weakness when you need.
- Do BS > Spin > HR > HR loops
  
- Video example: [here](#)
- Rokuro will always target the wyvern with highest amount of souls.

### [Outside]

- Walk until the bridge to trigger skit
- Inoph bottle to Reneed

### [Yseult]

- Still don't have **fluoric blade**? Check shop
- If you didn't get fluoric blade this is a point where runners reset but if you wish to continue next places possible to get fluoric blade are:
- Dummy mini game (3x) to restock shop
- Titania monkey drop
- Reneed and Yseult shops after pandora pot
- Stoneburry monkey drops

- Just so you know if you don't get fluoric your mid game is going to be fine as long as you extend your combos but starting late game it is going to suffer.
- If you do have fluoric blade then buy 2 fluoric pieces
- **Dismantle**  
Fluoric stuff(**NOT THE BLADE**) and silver scrap stuff
- **Enhance**  
+3 Fluoric blade  
+2 Garish pink shirt
- Equip **Fluoric blade**

### [Before poison toad]

- Artes  
Disable everyone expect Rokuro's Smokescreen

### Poison toad

- Dumps souls with everyone
- Double switch with Magilou

BS > Spin > HR > HR  
BS > Spin > HR > HR  
BS > Spin > HR  
BS > Spin > HR  
BS > Spin > HR > Spin > BSMA
- Use Eizen's both break souls when boss is stunned. The earlier the better. Combo doesn't have to be precise as I wrote it's just an example. I suggest trying out some of your own stuff if you feel like it on this fight. Remember count break souls to 6.
- Once Rokuro applies a.def down put AI back on defense. Don't switch Eizen in while poison breath is on the field even though you have interrupted the boss.

- Shadow flow only line returns. Except slot 2 stays Swallow Dance.

### Shigure

- Do the switches and soul dumping you did on Teresa and Oscar
- Break soul with Velvet. Doesn't matter if you miss
- Guard for red charge
- Once Shigure dashes through you
- Dash > BS > Spin > HR > Sear > Flow > BA  
BS > Flow(Laphi BS)  
BS > Spin > Spin > Flow  
BS > Spin > Spin > Flow or BSMA if you got flow debuff  
BS > Spin > HR > BSMA

### [Before Melchior]

Grab geo tree

### Demi-Melchior

- Dump souls with Magilou, Eizen switch Laphi in, dump with Eleanor and Rokurou

- Yes only 1 Magilou switch in this time
- BS with Velvet
- Force a stun out of Melchior and dump Velvet's souls
- Guard for red charge
- Soul bottle on Velvet
- Arcane bottle on Velvet
- Get to 1hp
- BA > BS > Flow(Laphi BS) > Spin > HR > Spin > BA(Laphi BS)  
BS > Sear > Spin > Spin > BSMA

#### **[After Melchior]**

- Inoph bottle
- Talk with Dyle
- Inoph bottle to Hellawes
- Rest in inn in Hellawes

#### **[Zekson]**

- Inoph bottle to east Zekson

#### **[Before Artorius throne]**

- Grab geo tree
- After activating 2 seals Denore bottle
- Grab geo tree

#### **[Before last fights]**

TEAM: Rokurou slot 1. Velvet in sub slot ofc

#### **Artorius**

- Dump souls with Rokurou
- 2 x switch
- BS Artorius
- Wait for Artorius to BS someone
- If he BSed you put the soul back into his pool
- If you have 4 souls then  
Dash > BS  
Dash > BS (soul bottle)  
Dash > BS  
Dash > BS  
Dash > BS > Spin > Rebuttall > Shadow flow > BA  
BS > Spin > Rebuttall > Spin > BSMA
- If you have 3 souls then

- Get red charge
- Spin > BS  
Dash > BS (soul bottle)  
Dash > BS  
Dash > BS  
Dash > BS > Spin > Rebuttal > Shadow flow > BA  
BS > Spin > Rebuttal > Spin > BSMA
- If you have 2 souls then yikes. Just use soul bottle and stay at 4 souls. Once you get to 1 hp you can try doing fluoric strats which can go in every possible direction. There's a reason why I made the dash combo on Artorius since Fluoric strat might do more dmg but it takes longer to set up and is quite inconsistent.
- Finish off Artorius with Hell's claw loops

### Inno

- Searing > BS > Searing > Spin  
BS > Searing > Spin  
BS > Searing > Spin  
BS > Searing > Spin  
BS > Shadow flow > Spin > BSMA
- Artorius is the biggest clown of this run. This fight goes wrong so many times. Consistency does not exist here sadly but practice this fight just so you know what you can expect and come up with your own ways to recover.

### Armatorius

- Artes put Infernal torrent on your shadow flow
- Dump souls with everyone
- Wait for burn
- If you're at 2 souls then red charge and use Infernal torrent
- Once you get a burn
- Wait for him to BS  
BA goes off > BS > Searing > Swallow > Spin  
BS > Searing > Spin > Spin  
BS > Searing > Spin > Spin  
BS > Searing > Spin > Spin > BSMA
- You want to do this twice during one burn. Use Elixir for BG. Keep in mind stun timings can be different depending on your souls.
- Switch in Laphi and use his lvl 2 BS as a backup if the burn is about to run out.
