

Directions: Use the word bank to help you write the type of material you think each car part is made of.

Word bank: Metal Plastic Foam Rubber

Directions: Use the image above to help you complete the table below by describing how the shape of each car part relates to the function.

Car Part	Observable Properties		How do these relate to the function or purpose of the car part? What is the evidence?
	Type of Material	Shape	
Hood			
Windshield			
Driver Seat			
Frame			
Tire
