

SOC 204 Week 10: Discussion Prompt Assignment - (Choice 3) Functionalism

Here are three phrases:

1. Race is an unequal distribution of resources
2. Race is a verb
3. The most important thing about race is its consequences.

Pick one phrase that you think aligns with your perspective best. Explain why you think it aligns best and how would a sociologist of your perspective explain this phrase to someone who didn't study sociology.

Then pick another phrase (one of the remaining two) and critique it from your sociological perspective.

The title should contain your first choice phrase and your perspective.

Submit your answer here for me to grade your work. Post the same answer in the Week 10 Discussion Thread for reviewing and commenting by your peers.
