Self - Evaluation

Your own evaluation of the event.

Were you happy with it? Yes, the event went way better than expected. Having a free venue really made budgeting on a Pop-up budget very easy for 17 people. We could have actually taken 25 people.

What went well? The space was enough for the people we had. Playing Nintendo ended up keeping everyone entertained.

What can be done better? Some guests weren't happy with just pizza as it wasn't very healthy so we went out and bought some sushi. Next time I will add some healthy options.
