Milestone Deliverable Review Report

Deep Funding Round: 2

Project code:

Project title: Computer vision based farm status and recommender system

Milestone number: 5

Milestone deliverable:
https://marketplace.singularitynet.io/servicedetails/org/6f013f48539945af985c3851572d1c7a/service/farm_status_1/tab/0

Date: 05/08/2025

Status: Accepted

Feedback (Why accepted, why rejected?):
This milestone has been successfully integrated into the SNet marketplace and is considered fully delivered. The demo service is live, and I was able to test it. Everything appears to be functioning as expected. However, there were some access issues due to temporary downtime on the SNet platform, which made reaching the service a bit difficult at the time of review.

If rejected, suggested changes:
