Career Objective: To work with professionals utilizing my significant organizational, management, and communication skills to creatively solve asymmetrical problems to maximize efficiency and productivity.

Education: **MSA**, Administration (Public Administration), Univ. of West Florida, Pensacola, Florida
 BA, San Diego State University, San Diego, California
 AA, Grossmont College, El Cajon, California,
 High School Diploma, Pensacola High School, Pensacola, Florida,

Work Experience:

04-2023---Present---Business Development Manager, ESA South, Inc., Cantonment, Florida

Significant responsibilities: As the Business Development Manager for this large design-build construction firm, I work with the Acquisitions and Marketing Branch to identify and capture business projects for the firm. I assist the vice president of strategy with proposals and bid preparation for jobs that we are seeking, with the assistance of the estimating group and the vice-president of operations. For 2023, our team captured Federal projects that totaled more than \$120 Million and we currently have work in progress in excess of \$220 Million all across the country including aboard NAS Pensacola, the US Virgin Islands, Texas, Missouri, California, Indiana, and Alabama. The goal for 2024's capture is \$200 Million.

04-2018---04-2023---Engineering Annex Manager, Erica Lane Enterprises, Inc., Naval Air Station Pensacola, FL Bldg. 458.

Significant responsibilities: I managed all aspects of this Huntsville, Alabama corporation's Pensacola area footprint. I managed the Engineering Annex aboard NAS Pensacola which was contracted-out to Erica Lane Enterprises (eLe) under the NAS Pensacola BOS (Base Operating Support) contract. I supervised Engineers, Civil Engineering Techs, Planner Estimators, Construction Managers, and administrative personnel within the annex, and I interfaced directly and extensively with The Navy Public Works Department, local, regional & national civilian contractors, and supported commands to insure our Annex provided responsive and timely client deliverables and support-- and that we were always compliant with the terms of the Base Operating Support Sub-Contract under which we operated.

08-2007---04-2018---Work Control /Quality Assurance Supervisor, Irby Engineering LLC., Naval Air Station Pensacola, FL Bldg. 458.

Significant responsibilities: I maintained Annex deadlines for work completion and insured that the quality of deliverables exceeded expectations and contractual requirements; I developed and implemented solutions to decrease Annex overhead costs while maximizing efficiency and simultaneously honoring all terms of the employee collective bargaining agreement. I served as the POC for all incoming and outgoing work for our group of 23 employees. I interfaced with The Navy Public Works Department, civilian contractors, and supported commands to ensure our Annex complied with the terms of the Base Operating Support Contract, which at all times we did, and that we provided superior customer service to our clients.

11-2016---Present---District 1 Board Member, Escambia Board of County Commissioners

Significant responsibilities: As an elected member of this 5- member board, duties include oversight of county assets, budget planning, and policy making for various aspects of local government operations to include: Economic Development, Parks and Recreation, Planning and Zoning, Drainage and Roadway Infrastructure, Animal Control, Detention and Community Corrections, and Natural Resources. An additional and very important duty as a County Commissioner is the representation of the 59,000 residents of district one as well as oversight responsibility for a work force of over 1,800 employees with a budget of more than four-hundred fifty million dollars annually.

11-2006—11-2016-- Escambia County School Board Member, District 1

Significant responsibilities: As a ten-year elected official on the 5- member board, duties included approval of the following: budget, curriculum, human resources, purchasing, risk management, and operations related policies. Representation of the 59,000 residents of district one. Oversight responsibility for a work force of over 7,500 employees, 39,000 students, and a budget of more than six-hundred million dollars annually.

08-2006---8--2007---Facilities Management Specialist, Lockheed Martin Information Technology Services, Naval Air Station Pensacola, FL.

Significant responsibilities: Facility management oversight of 86 buildings representing twenty-five separate commands at four separate locations including Corry Station, NAS Pensacola, Saufley Field, and Bronson Field. Facilitation of project implementation, scope of work requests, HVAC and mechanical repair and replacements, and remodeling and renovations.

04-2005—08--2006—Cultural Resources Manager, Naval Air Station Pensacola, FL.

Significant responsibilities: Management of all excavation permits aboard station property, project review to ensure compliance both with Federal Cultural Resource Management Law and NAS Pensacola's Base Exterior Architecture Plan. Interagency communications between NAS Pensacola, Florida Historic Preservation Officer, and the 19 Native American Consulting Tribes.

09-1998—10-2006—Owner/Operator, Tavern Enterprises Inc. San Diego, California and Tavern Enterprises LLC of Pensacola, Florida.

Significant responsibilities: Oversight of all aspects of this busy, multi-unit bar/restaurant, commercial real estate and retail chain that I opened. Responsibilities included Purchasing, payroll, human resources, advertising, marketing, promotions, training, SBA loan acquisition, lease negotiation, building repair and maintenance, inventory, and custodial responsibilities. Purchased, operated profitably, rehabilitated, and re-sold 2 night-clubs, two sports bars, a hair salon, and two commercial properties realizing significant profits on these transactions.

01-1989—12-1998—Lead PM Bartender/Lounge Supervisor, 94th Aero Squadron, San Diego, California

Significant responsibilities: Oversight of high volume (3+Million yearly) lounge operations, Bartender, food server, promotions, cash and receipt deposits for daily business, and inventory. In anticipation of opening my own business, I worked with my mentor who was the owner of the business, Fred Mashhour, to learn all aspects of the food/beverage industry from the operator of this restaurant, a man with 40 years of ownership and executive-level restaurant management and oversight experience as the VP for the Western Region of Specialty Restaurants, Inc.

07-1987—01-1989—Bartender/Food Server, The Blue Crab Restaurant, El Cajon, California.

Significant responsibilities: Service of drinks and food to customers, service bartender for up to 13 food servers, answering telephones and taking guest reservations.

07-1986—07-1987—Maintenance Technician, The Springs Community Association, Rancho Mirage, California.

Significant responsibilities: Interfacing with residents and a team of five other maintenance technicians to complete daily maintenance tasks to include repair of mailboxes, garage doors, pool and spa equipment. Trimming of trees, and minor structure repair, painting and stucco repair.
