@0915/ Gwanak-gu Public health center
Quiet, Nobody seen at entrance, general health care service stopped

@0935/ H Plus YangJi Hospital
2 employees at entrance says they don’t know exact number. But there are not a lot of new patients on April 1st and 2nd morning. Hospital is not busy at all

@0950 Boramae Hospital
“Safe sure general hospital” is quite busy while selective clinic for corona is calm. Witnessed no corona patient.
One police, one safety guard keeping door wouldn’t provide any information.

@1000 Hallym Univ. Gangnam medical center
Several employees(not medical) at front confirmed not a lot of patient visiting.

@1005 8 MYONGJI ST. MARY'S HOSPITAL
quite, nobody there

Ambulance to SouthWest hospital
Forgot to take a picture at hospital
@1040 Seoul south west hospital.
Followed ambulance, no patient in the vehicle.
Asked the guy in plastic protectiont garment but he said he don’t know, he can’t provide any info.

@1120 Gang-seo public medical center
Manu people visiting here (mostly single or party of 2) looked worried or concerned.
Nobody in serious condition or illness.

April 2nd was warm, windy, flowers blooming day at Seoul. Lots of people outside. I could feel that not a lot of people suffering from disease or other circumstances caused by illness.

Streets, stores and restaurants are open with a lot of customers.

People who are not careful at all (I think they feel safe because nobody around them are actually sick) still want more control from government and willing to accept any solution 😂
