

Parents,

Our county has purchased several programs for our students to practice skills that we are learning and/or skills they are lacking to be on grade level. Below you will find instructions on how you and your student can access these programs from home. I've also listed the most beneficial programs and which subjects they cover. Most of these programs can be accessed on a smartphone as well as a tablet, chromebook, and/or laptop. If you do not have access to the internet, there are a few places in the county where you can access the internet for free. The public library not only has free internet access, it also has computers for use with a valid library card.

Your student has a county email address and password. Their email address is firstname.middleinitial.lastname@fcstn.net with the password [fcss#####](#). Their email and passwords are written in their homework planners. To access the email, go to www.google.com and sign in using the blue button in the top right corner.

Each student has a Classlink account which serves as a homepage for all the programs that the county has purchased. Once logged into Classlink, the student has access to the programs. All of their usernames and passwords are saved for them. To access Classlink, Google Classlink and choose the sign in option on the search page. Be sure to sign in with Google.

Once you are logged in, you will find the following apps which you and your student can access for at home practice:

Study Island-All subjects(Skill Practice)

Google Classroom-A place to find assignments from each homeroom class

IXL-Language Arts(ELA), Math,

Amplify- reading stories/vocabulary

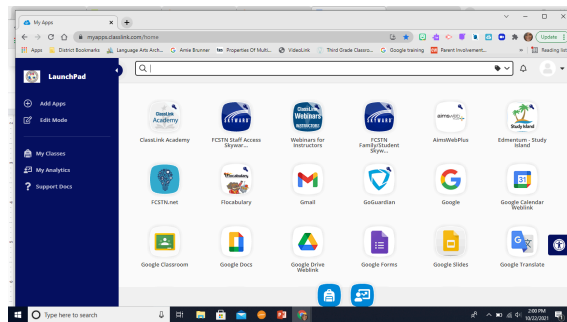

McGraw Hill- 3rd, 4th, 5th grade Science/ 4th and 5th grade Reading

Mystery Science-Science and STEM

Reading Eggs-K-3 Reading and Phonics

Edmentum-Reading and Math skill practice

Extra Math-Math Skill Practice

Hopefully everyone gets an opportunity to utilize these resources at home as well as at school that our school system has purchased.
