

FRIDAYS

Artist Club: Painters & Sculptures (4:00 and 5:00) (for all Clubhouse participants in Grades 1-5)

Calling all young artists and visionaries in grades 1-5 for some Friday Fun painting and sculpting in Umpleby Hall. We're turning the large common area in Umpleby into a giant artist studio with lessons facilitated by our ACE team art teacher, Victoria Estany-Greenway. Ms. Greenway is a highly experienced art educator who will share a number of mediums for students to create. What's also so very exciting about this Clubhouse offering is that our students can work on their masterpieces over time if they need to do so. Students might finish one piece and start another in the two hour span of the class. Or they may elect to continue with their work each Friday that they're with us in the Clubhouse.

Parents - this class is 60 minutes long. Students may leave before the end of the project time, but extended time is needed to engage in three-dimensional activities.
