

How to Catch a Rat

Are you tired of greedy rats nibbling all the food in your kitchen cupboards? If so, do not despair. Help is at hand. Rats carry infectious diseases and therefore must be defeated. Read these instructions and soon you too will be rid of this terrible pest.

What you need: a magical spade, a brown sheet, a slice of cheese, a soft net and a small cage.

What you do:

First, dig a small hole in the kitchen floor.

Next, cover the hole with a brown sheet.

After that, carefully place the slice of cheese on top.

Now tiptoe to hide behind the kitchen door.

In the end, the rat will not be able to resist the temptation and will, therefore, fall into the hole.

Finally, scoop up the rat using the soft net and carefully place in the cage.

A final reminder

Rats have sharp teeth so remember to wear thick gloves when placing the rat into the cage.
