UX Designer focused on bringing clarity to complex systems. I design scalable interfaces, design systems, and accessibility-forward workflows that improve usability, consistency, and cross-team collaboration.

EXPERIENCE

UX Designer – Capstone Jan 2026 – Present
Dell Technologies

- Designing an interface to help 20+ researchers manage qualitative and quantitative research artifacts.
- Conduct stakeholder interviews across research, product, and operations to uncover workflow fragmentation.

UX Designer – Universal Design Systems Team May 2025 – Present
Dev Launchers

- Built core components and variants within a centralized Figma design system, improving UI consistency across products and reducing visual inconsistencies by 30%.
- Implemented design tokens for color, typography, and spacing using variables and collections in Figma, and authored component documentation and usage guidelines aligned with WCAG 2.2 accessibility standards.
- Improved developer handoff by alignment with Storybook implementations, ensuring consistent component behavior across web, iOS, and Android platforms.

UX Engineer Jul 2023 – Jan 2024
Wohlig Transformations Pvt. Ltd.

- Designed and implemented 25+ responsive web interfaces using Figma and Vue.js, ensuring alignment between designs and shipped UI.
- Built interactive prototypes featuring micro-interactions to validate user feedback loops before high-fidelity development.
- Partnered with designers and engineers to ensure designs translated accurately into production interfaces.

EDUCATION

Masters of Science, Human-Computer Interaction May 2026
University of Texas at Austin

Bachelor of Engineering, Information Technology May 2023
University of Mumbai

SKILLS

- **UX & Systems Design:** User Journeys, Wireframes, Storyboarding, Component Architecture, Interaction Design, Information Architecture, Design Systems, Dashboard Design, Workflow Optimization, Responsive Design
- **Research & Validation:** User Interviews, Usability Testing, Accessibility Audits, Heuristic Evaluation, Survey Design
- **Accessibility:** WCAG 2.2, ARIA, Color Contrast Testing, Keyboard Navigation
- **Tools & Technical Fluency:** Figma, Storybook, Vue.js, HTML/CSS/JS, Git, Jira, Notion, Miro

SELECT PROJECTS

Centro – E-commerce Usability & Accessibility Audit **Nov 2025**

- Led usability testing interviews, synthesized behavioral insights, and conducted WCAG 2.2 accessibility evaluations to identify usability and compliance gaps across critical e-commerce workflows.
- Delivered state-aware redesign recommendations improving navigation clarity, semantic structure, and keyboard accessibility.

Yes, Chef! – Smart Cooking Companion Application **April 2025**

- Designed AI-supported mobile interactions to guide adaptive cooking workflows through structured personalization and task-state feedback.
- Iteratively tested and refined prototyped flows, improving task success rates by 30% in usability testing sessions.

LEADERSHIP

- **Teaching Assistant | UT Austin:** Mentor 200+ students in UX design, Figma, R, and Python.
