

# Hot Sexy Sequence Titles

Welcome to the new and improved *list of hot sexy sequence titles* to use at your leisure. Here are the guidelines for entering and using titles:

1. Names must follow the existing OS rules (no slurs, *excessive* profanity, etc.)
2. Include your name [in brackets] before entering your title.
3. When claiming a title, strikethrough the title only and append the sequence link {in curly brackets}. You can also add your name if deemed necessary.
4. Unless specifically stated by the title creator, you do not have to give credit in your sequences.

Examples: [bob] bob's title      [bob] ~~bob's title~~ {<https://onlinesequencer.net/candy>}
