- Growth Opportunities – Expand with us into bigger roles and leadership

- Local Partnerships – Strengthen ties with venues and small businesses

## **Important Notes if Hosts Are Single:**

- Hosts can come to singles events when they are not working, but cannot use the software during the event.
- This is to reduce the risk of user privacy policy as hosts will have back-end access to users contact info. If you want to connect with someone, will have to get contact info from guests in person.
- Hosts can come for free to any singles event they are not working
- Hosts can tell guests they are single when they are hosting, and chat with guests if it does not interfere with hosting duties.
- Hosts can stay after and chat with guests after hosting duties are complete.
- If hosts have gone on dates with guests, hosts must uphold a professional manor when working at events, still be kind and respectful no matter the relationship status.
