WE NEED YOU!

Welcome to the 2024-2025 school year at Kickapoo. It has been proven that one of the greatest single factors of student success at school is the active involvement of parents, guardians, or relatives as partners in their educational development. There are many ways to become involved and to show our students and staff how much you care.

Please indicate any of the areas or events below in which you would like to volunteer or participate. Your involvement will generate tremendous rewards for you, for Kickapoo, and most importantly, for our students. Everyone becomes a winner!
