## Schoology-Change a Course Theme

Schoology supports two different course themes: a default "Secondary" theme for older students, and a simpler "Elementary" theme for elementary level students. You can change the theme for a single course to make the interface easier to use. You must be an admin in the course to make this change. Follow these steps to change the course theme:
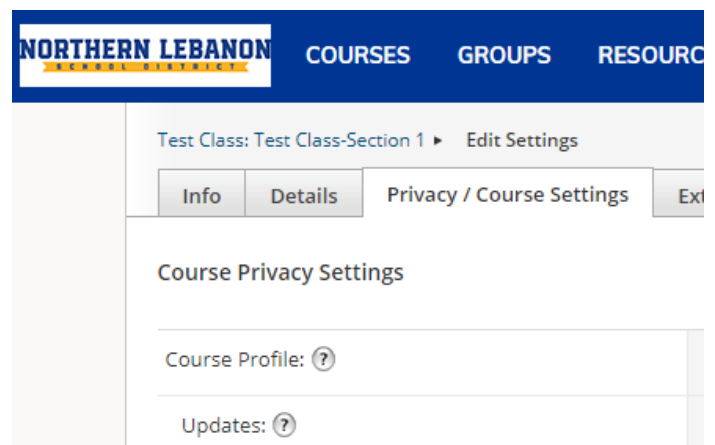

1. Login to Schoology and access a course.

2. On the left menu, click on **Course Options**, then choose **Edit Privacy / Course Settings.**

3. On the **Privacy / Course Settings** menu, scroll to the bottom of the screen and look for **Course View Settings.**

4. Under **Course View Settings**, find the **Course Theme** setting.

Course View Settings

Course Theme: Secondary ⌄

Default landing page: Materials ⌄ ⑦

Save Changes

5. Choose the Course Theme that is appropriate for the course. Then click the **Save Changes** button.

Course View Settings

Course Theme: Secondary ⌄

Save Changes

Please note that, if you have chosen the Elementary theme for your course, the theme choice will only affect students enrolled in your course, and it will only affect those students when using this particular course. Other teachers and admins will still see the default Secondary interface.

Course View Settings

Course Theme: Elementary ⌄ The Elementary theme will change the view of your course for **students** only.
