

Milestone deliverable Review Report

Deep Funding Round: 3

Project code: DFR3-NEW5

Name of the project: MAUQ: Convert Any Model Point Prediction Into A Probabilistic Prediction

Milestone number: 1

Milestone deliverable:

 **MAUQ: Convert any Model Point Prediction into a Probabilistic Prediction**

Date: 26 Dec 2023

Status: Accepted

Feedback (Why accepted, why rejected?): Contract is signed (Meaning that milestone details have been finalised). Also, Allocation of 40% API Calls across development milestones is also implemented. ~~However, The deliverables description included assembling team members and there's actually no submission that includes the awarded team structure for achieving milestones.~~

Updated 30/12 : Team structure submitted and milestone now accepted

If rejected, suggested changes:

- ~~• I suggest sending in a team structure meant for achieving the overall project milestones.~~
