

Hello Discount Body Shop Team,

As listed in the subject line, I have 6 Ideas to take your business from Zero to Hero.

However... I am not on your team and therefore, I do not yet know how you guys run your business.

Because of this I will give you the first tip on how to give you that edge you desperately need in your industry.

Now... while I was touring your website I noticed that you guys are not on any social media platforms other than Facebook, *Yikes!*

Being a car enthusiast myself, I am always intrigued when I'm casually scrolling through my Instagram and I see a bright red Ferrari 812 Superfast zooming down the freeway.

And, honestly, I am in no way unique...

MILLIONS of others are captivated by cars, and this is BIG news for your business.

You see, not very many car companies are utilizing the true power of the internet.

Hey, I get it...

Understanding how to capture people's attention takes a lot of patience and knowledge that very few people contain.

Luckily, my team is full of experienced experts that have the specific knowledge to help companies like yours grow very quickly.

If you JUMP at the idea of seeing all of your competitors' customers in your shop, then let's make it happen!

BUT, we are only going to be partnering with 1 company so that our efforts are 100% focused on them.

So don't let your wildest dreams stay just that...

Your DREAM that is your competition's reality.

Thank you,
RRB MEDIA
