

SJMC – Annual Research & Scholarly Activity Symposium 2025

Call for Abstracts

Our sixth annual symposium will be on April 30, 2025. This is an opportunity to highlight and share all the efforts that occur in our facility to discover new knowledge and improve patient care and processes. Abstracts will be evaluated for poster or podium presentations in order for you to showcase your hard work, share what you've learned, and network with other clinicians. All clinical disciplines are encouraged to submit.

Submit your work

We invite you to submit your abstract during the window **January 3, 2025 - February 21, 2025**. Abstracts will be distributed in a blind fashion for readers to evaluate them. Approximately 8-10 will be chosen for podium presentations and the rest will have the opportunity for a poster presentation. Guidelines are provided in abstract templates and submission forms. **Please do not put any investigator identifiers on the abstract.**

Submissions should be sent to mouchumi.bhattacharyya@commonspirit.org. Notifications will be sent out to investigators approximately 2-3 weeks after the submission window closes. We will notify you with instructions & templates for presentation or poster templates for your convenience.
