

DOCUMENT OF FINDINGS

SCC JUSTICE PANEL

Preface

This document summarizes the evidence collected upon Justice Panel's discovery of a group chat called "merc gang" involving several users. The following users are of concern:

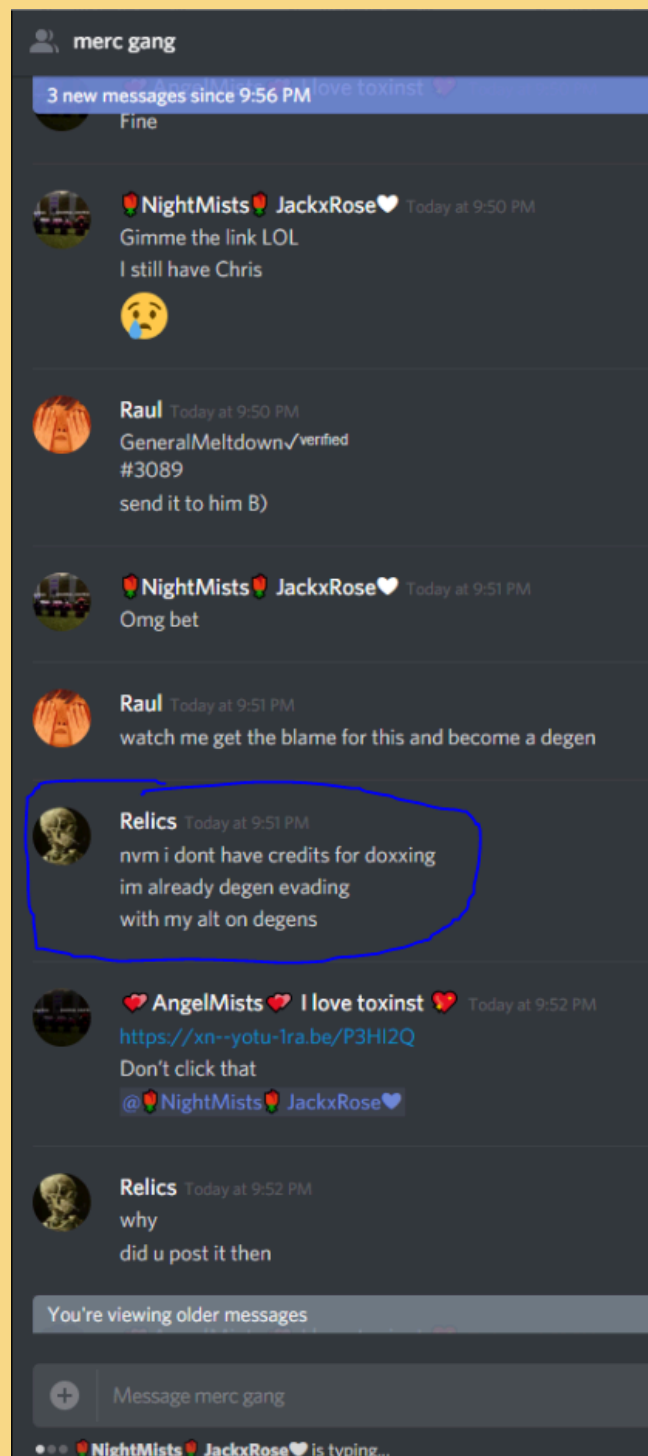

[TL] DesiredGamerr#0294 | 188618469393039360

Relics#0391 | 533781118411866115

:sparkling_heart:#7428 | 327835021287096330

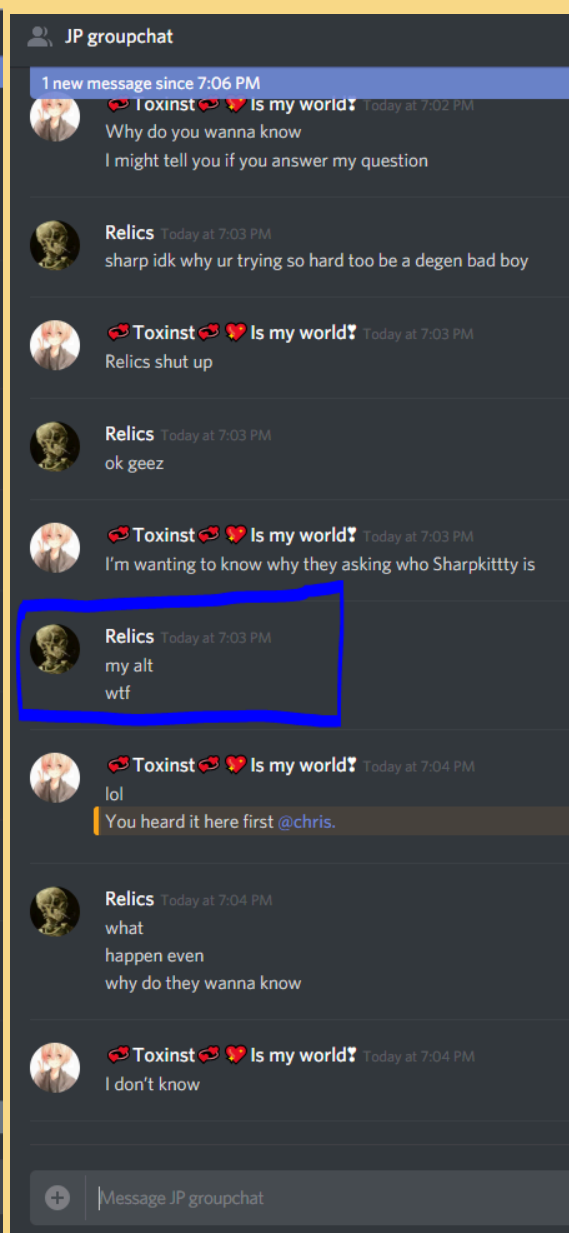

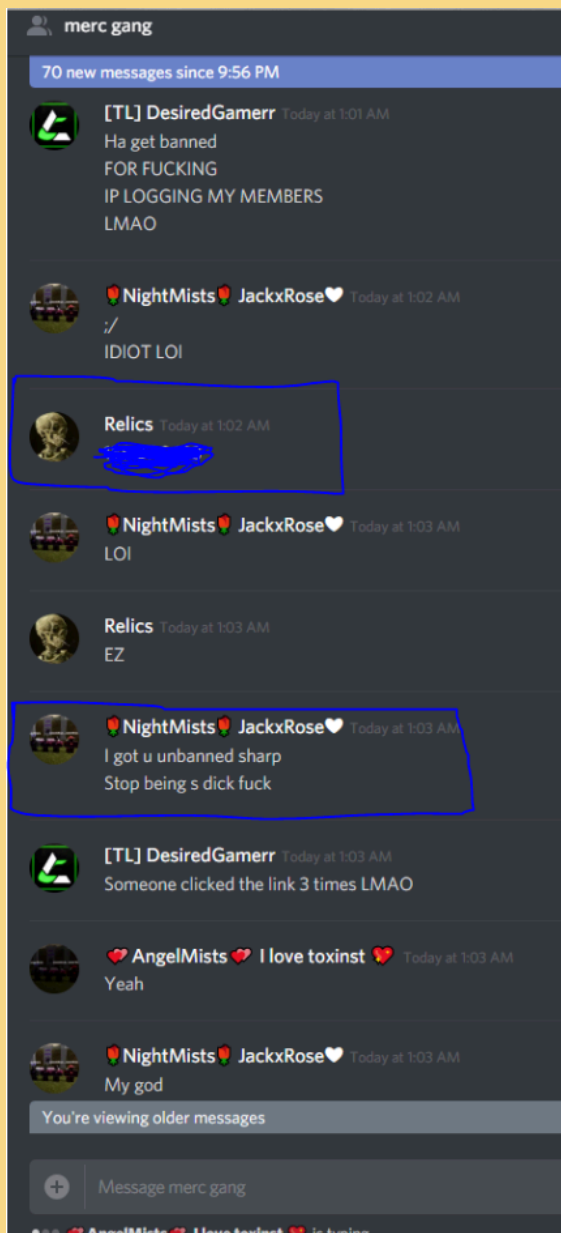

INDIVIDUAL: Relics#0391 | 533781118411866115

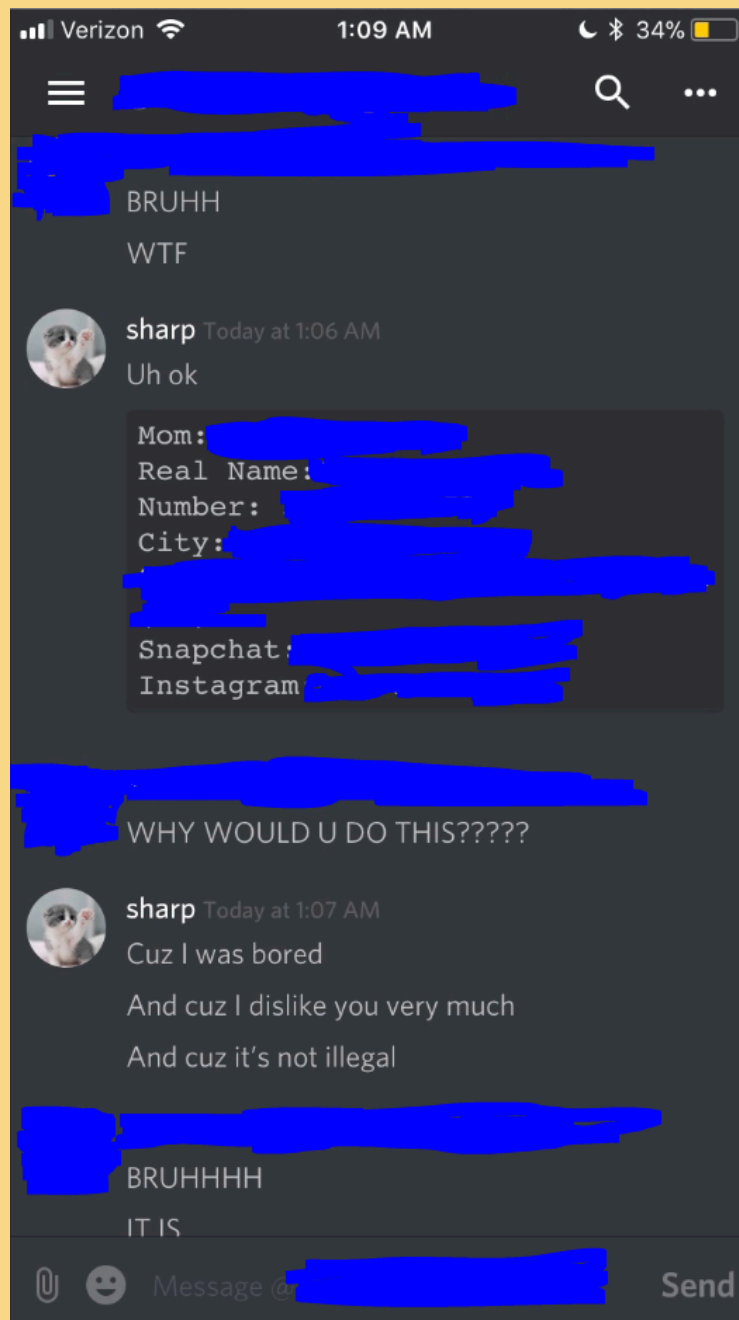

Relics admitting he is already a degenerate under a different alias.

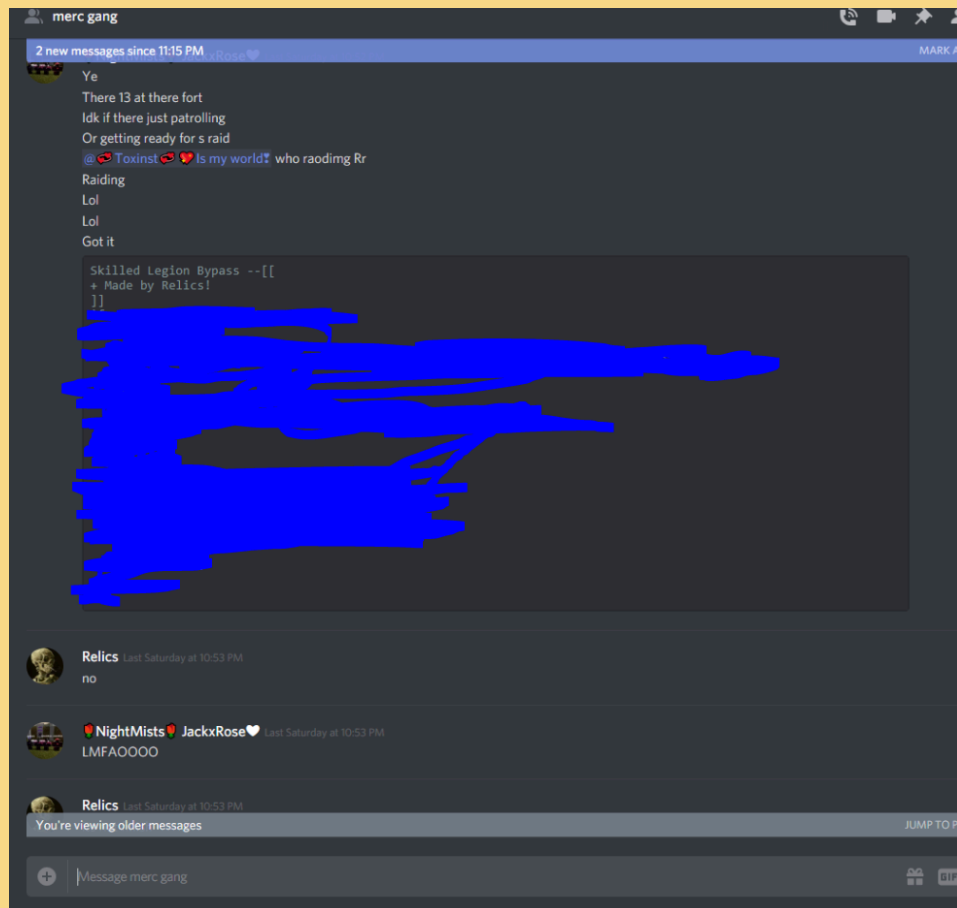

Further evidence of Relics being involved in doxxing activities.

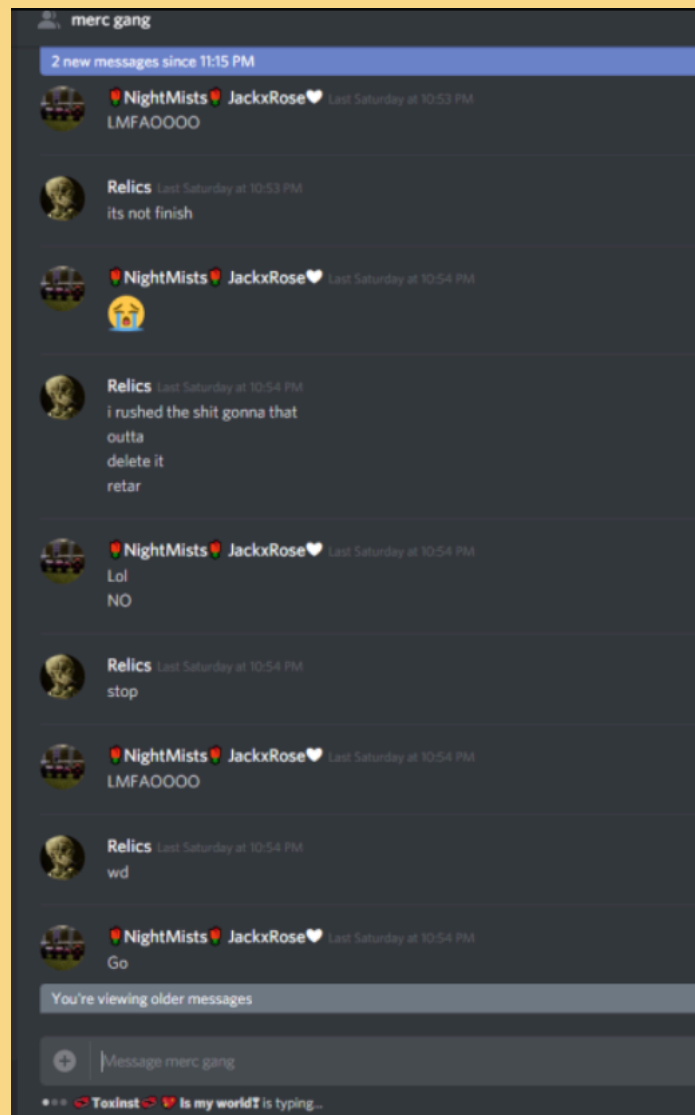

Relics posting the IP of a Terminal Legion member. Note how Jack refers to him as “sharp”, tipping off that Relics is sharpkitty.

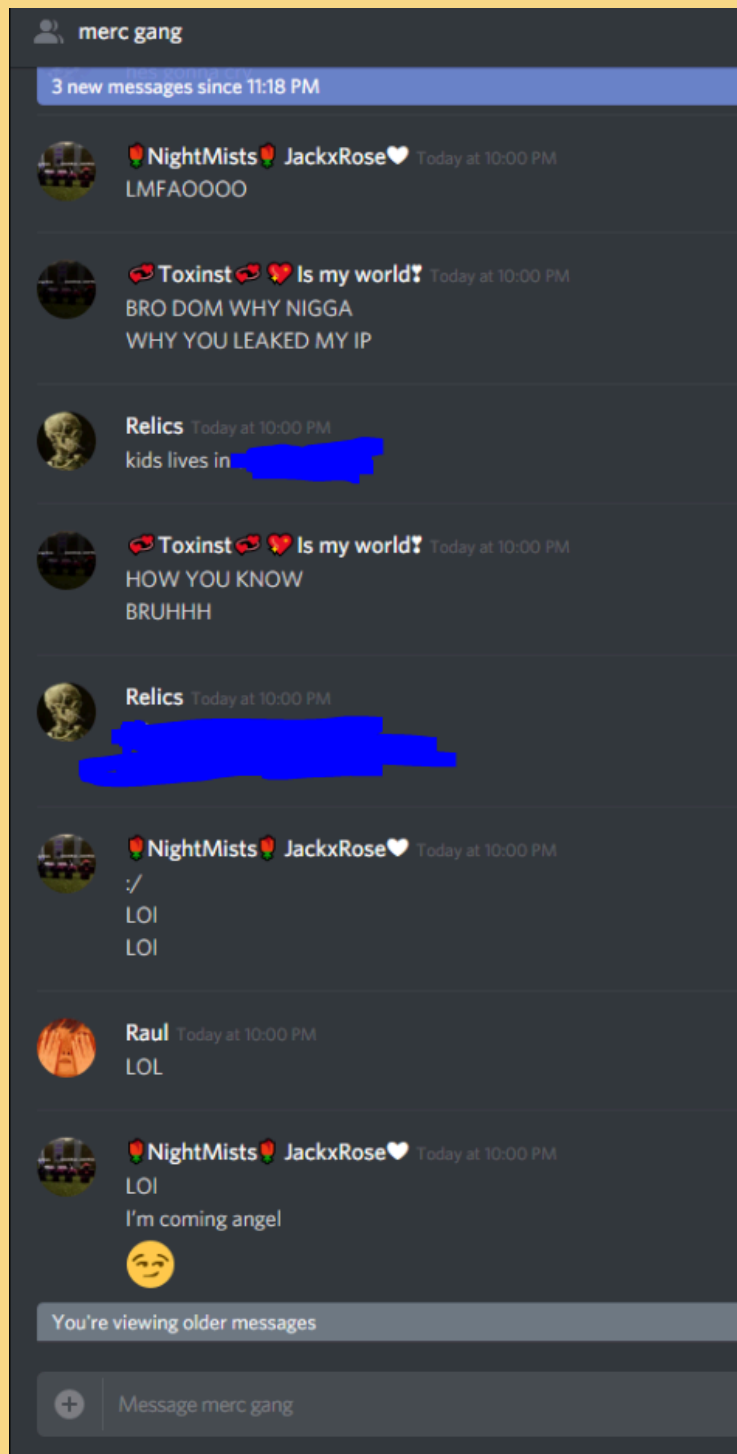

Relics/sharpkitty doxxing another user.
Note: Another dox was posted by Relics and discovered, but deleted before evidence could be grabbed.

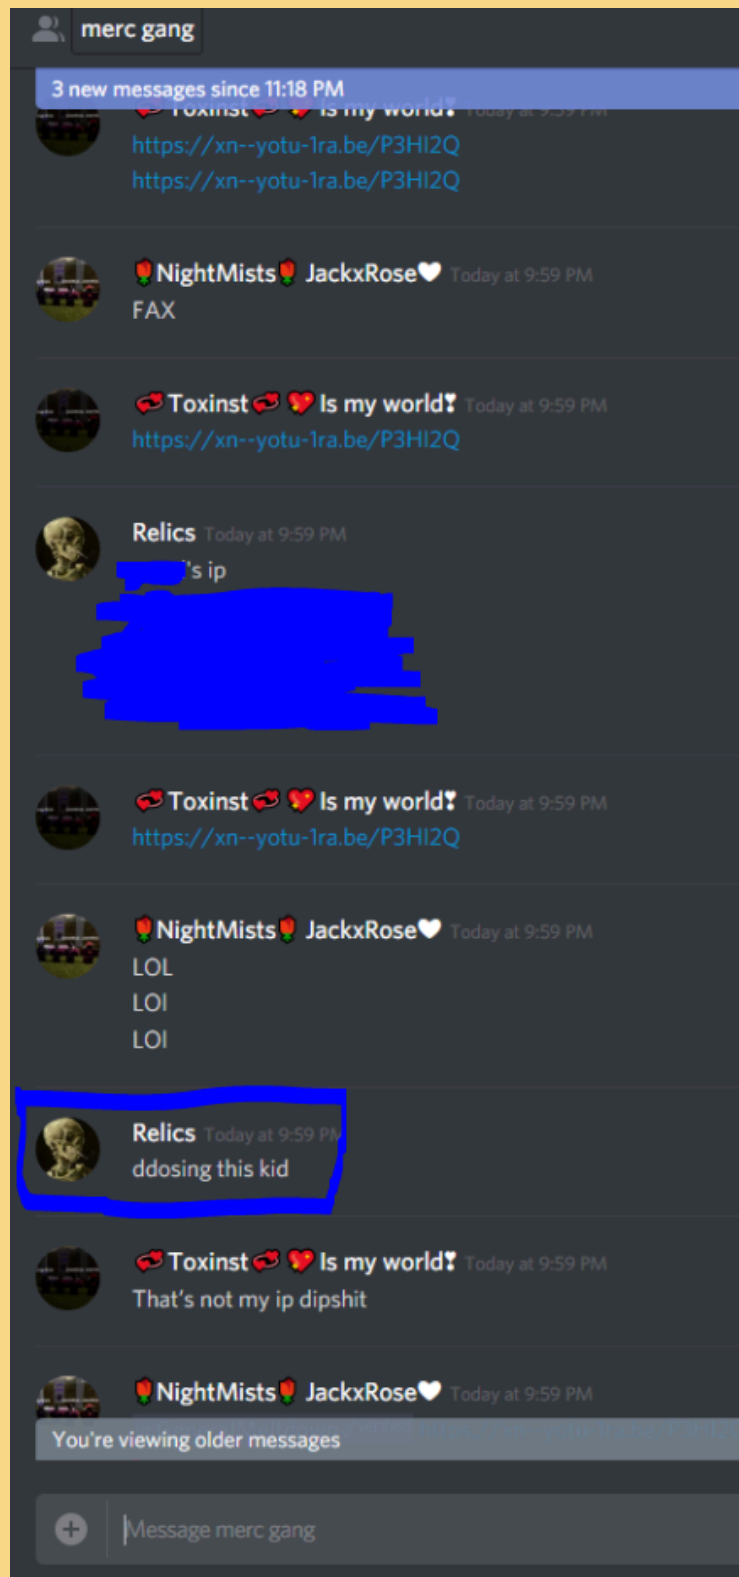

Jack posting an anti-exploit bypass created by Relics.

Relics reaffirming it is made by him, as he claims he “rushed it” and that it “isn’t finished”.

Relics posting another dox.

Relics posting another IP and saying he is going to “ddos this kid”.

INDIVIDUAL:

:rose:NightMists:rose:

INDIVIDUAL:

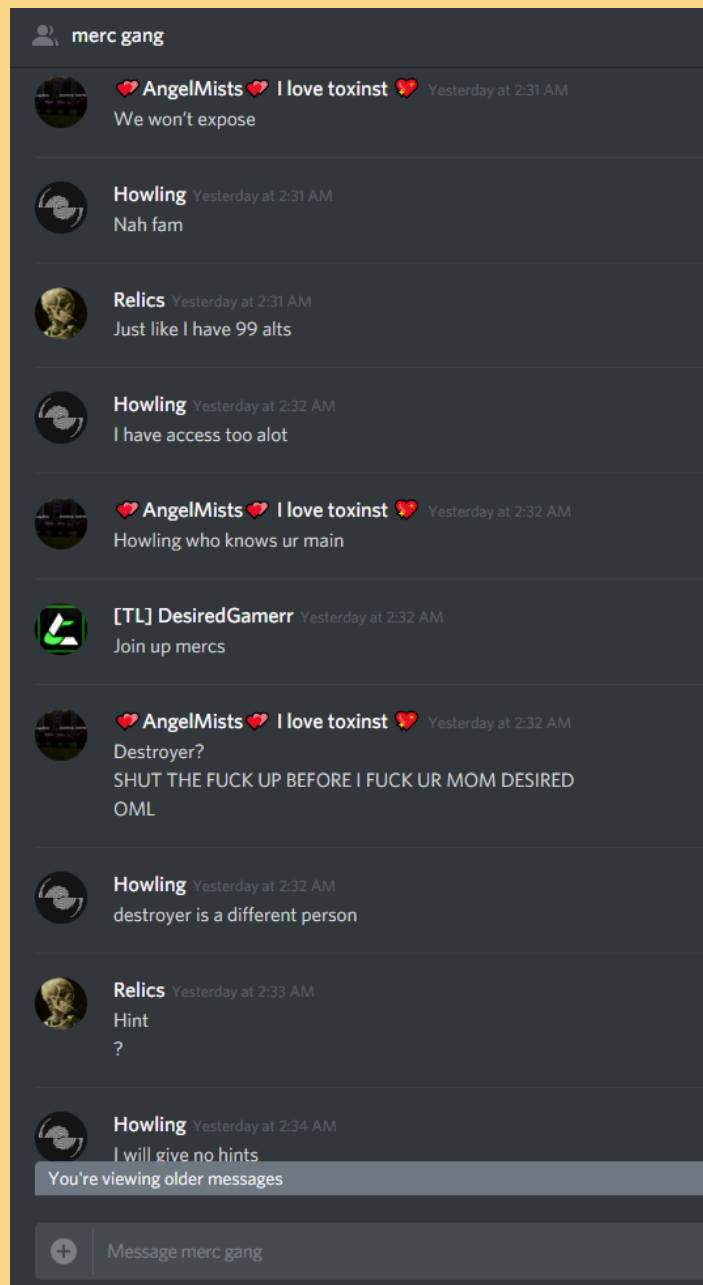

:two_hearts:AngelMists:two_hearts: I love
toxinst :sparkling_heart:#7428 |
327835021287096330

All evidence collected on these two individuals just further confirmed to Justice Panel that the recent charges they have faced are justified, as well as showing Justice Panel that the offences are more widespread than initially thought. These two members are already blacklisted from the SCC for these charges, so no further action has to be taken here.

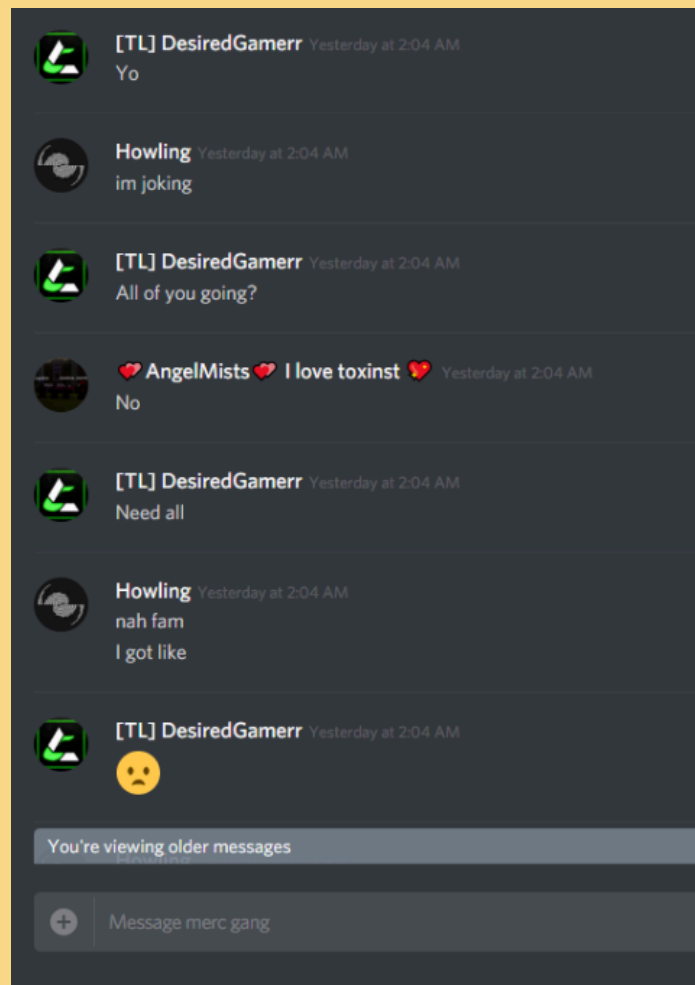

INDIVIDUAL: [TL] DesiredGamerr#0294 |

CLAN: TERMINAL LEGION

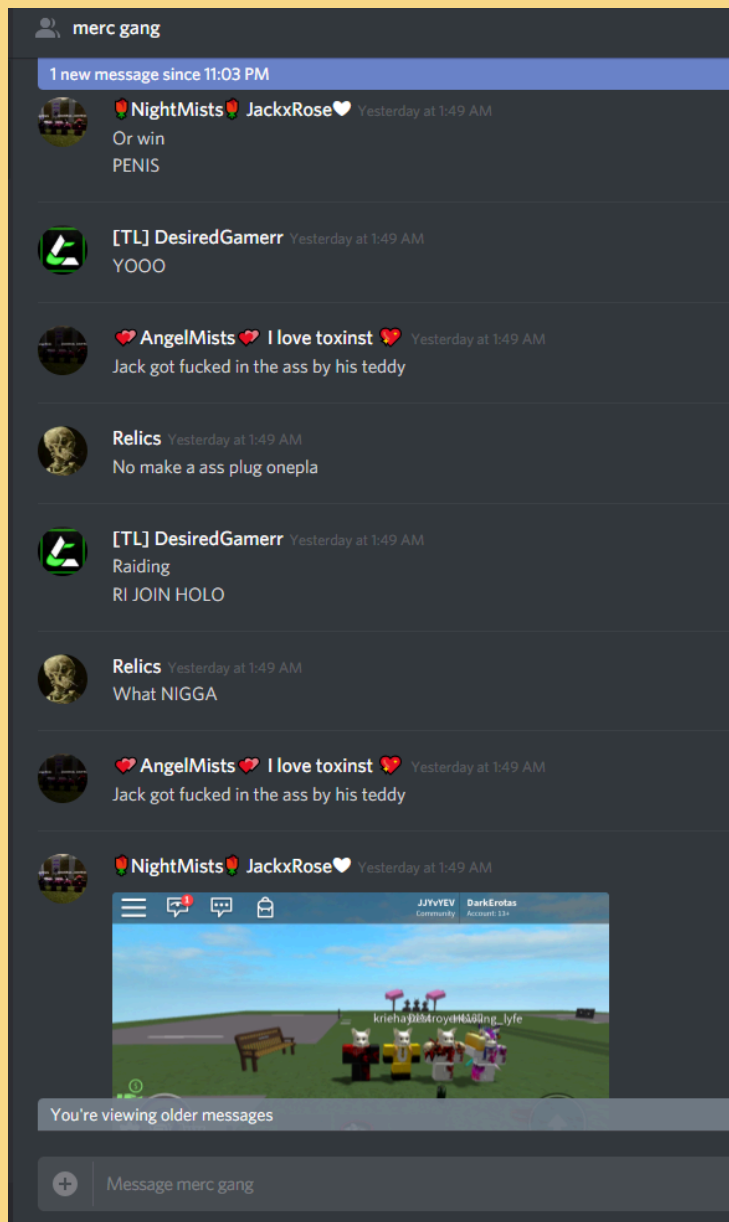

The following evidence gathered is a compilation of Terminal Legion's leader knowingly harbouring and using these degenerates to exploit and merc for his clan on numerous instances, along with allowing them to harm his members by methods such as IP grabbing.

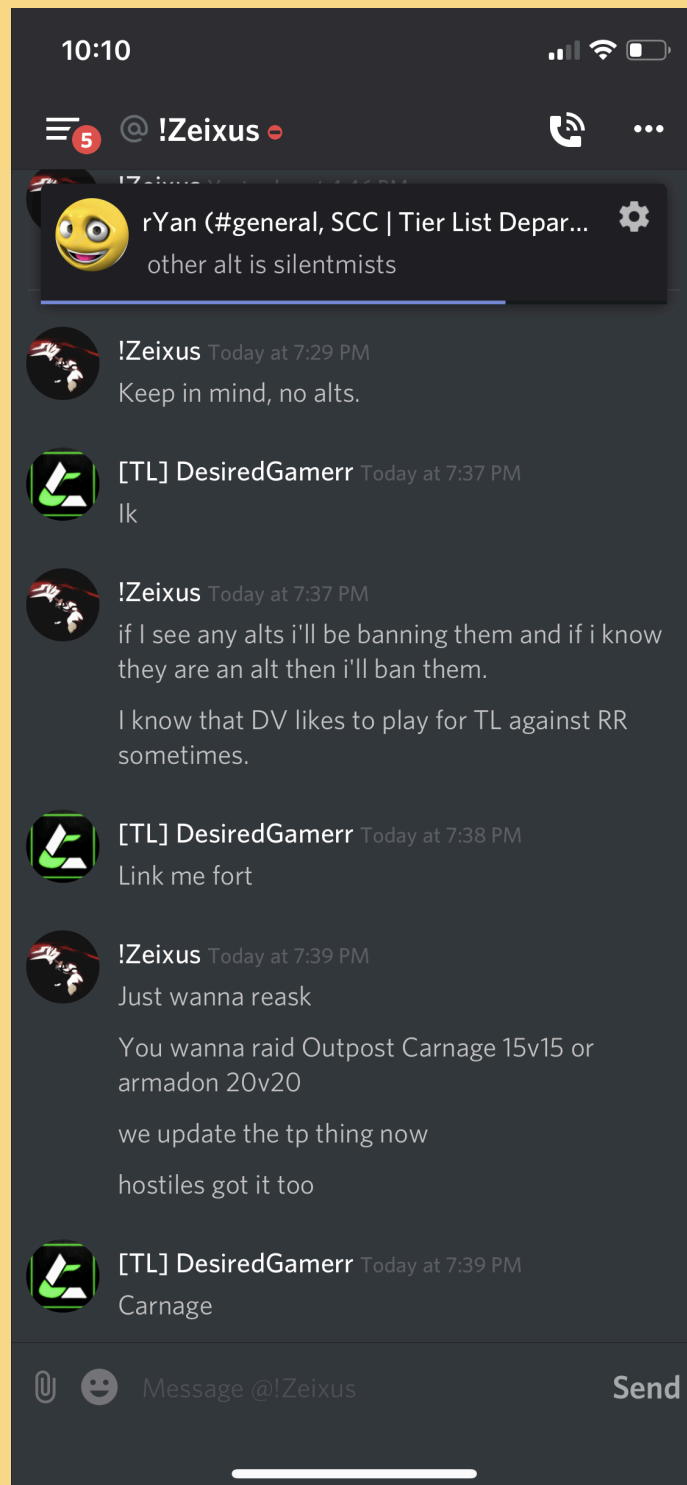

Leader of Terminal Legion (DesiredGamerr)
telling the degenerates to join his event,
knowing that they are going to be on alts.

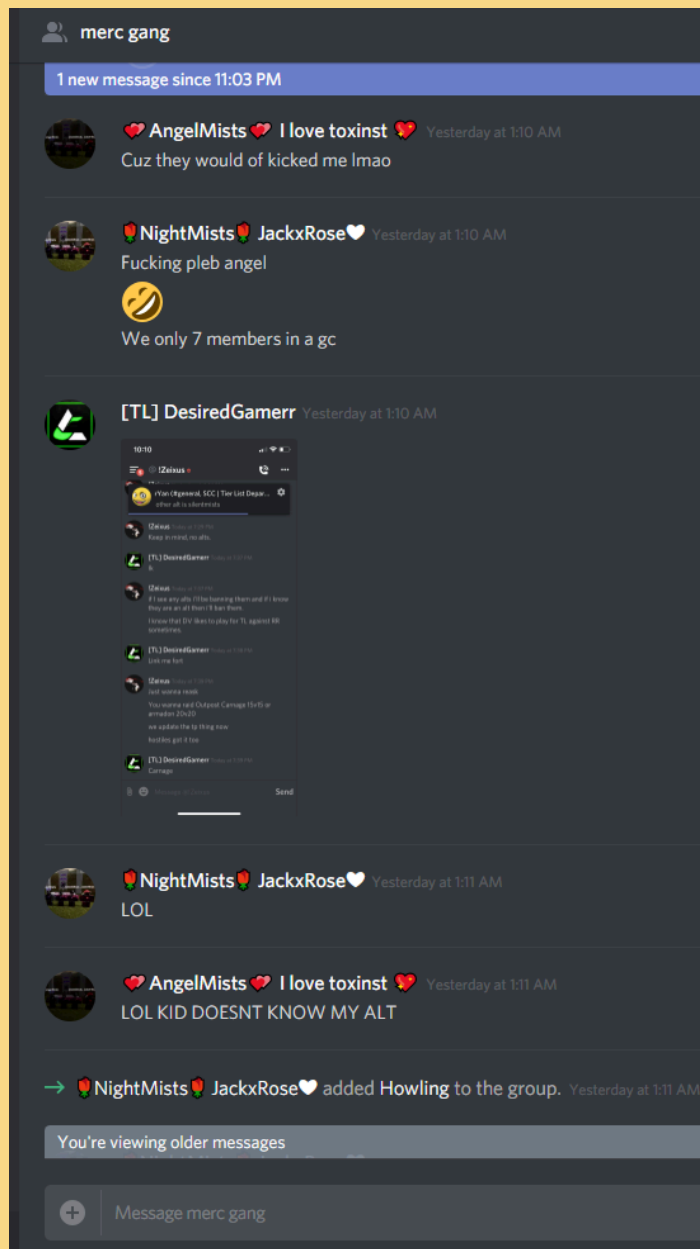

Desired saying how he “needs all” of them to join in order for his clan to win the event.

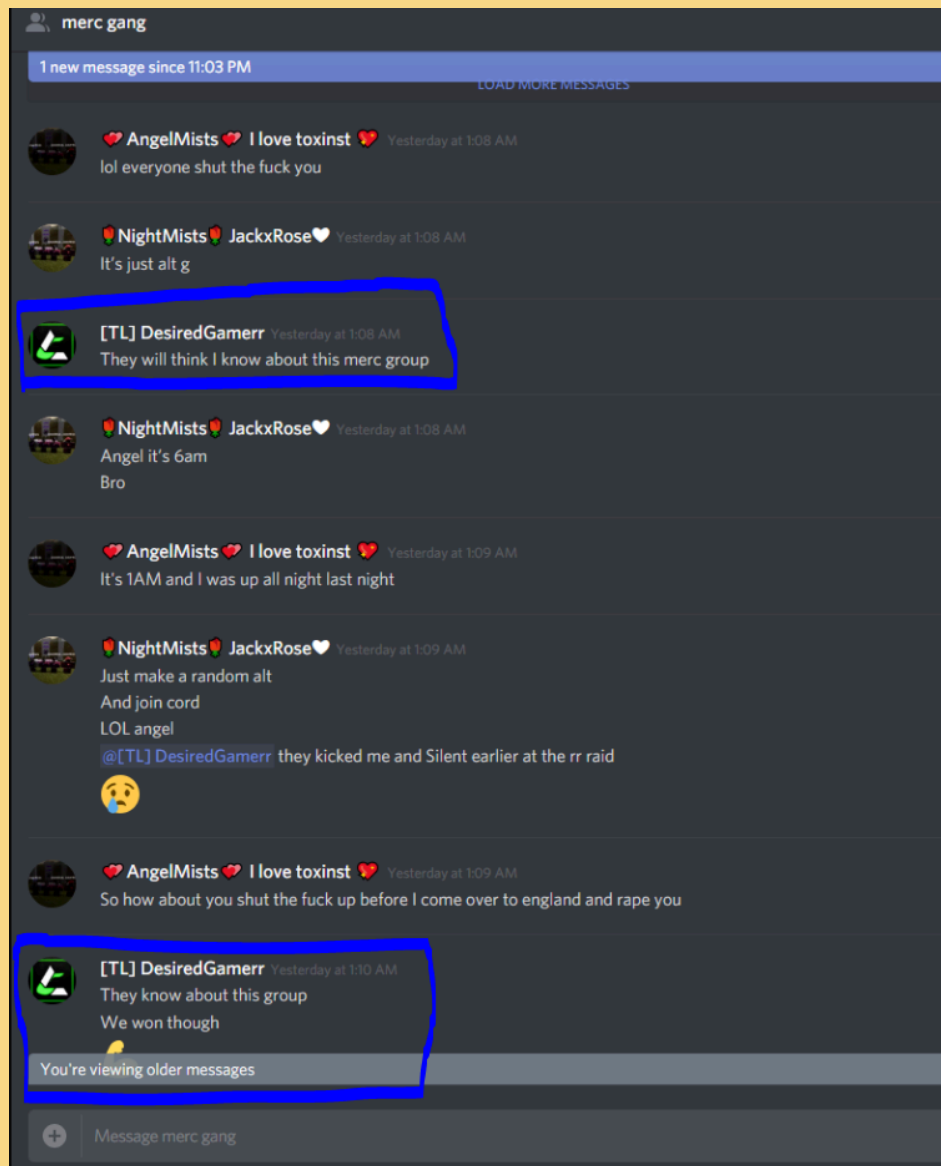

Desired telling them to join for a raid against RI.

Desired posted this screenshot in “merc gang” to notify the degenerates that Zeikru is on the lookout for suspicious players. He is knowingly helping these degenerates to cheat on behalf of his clan.

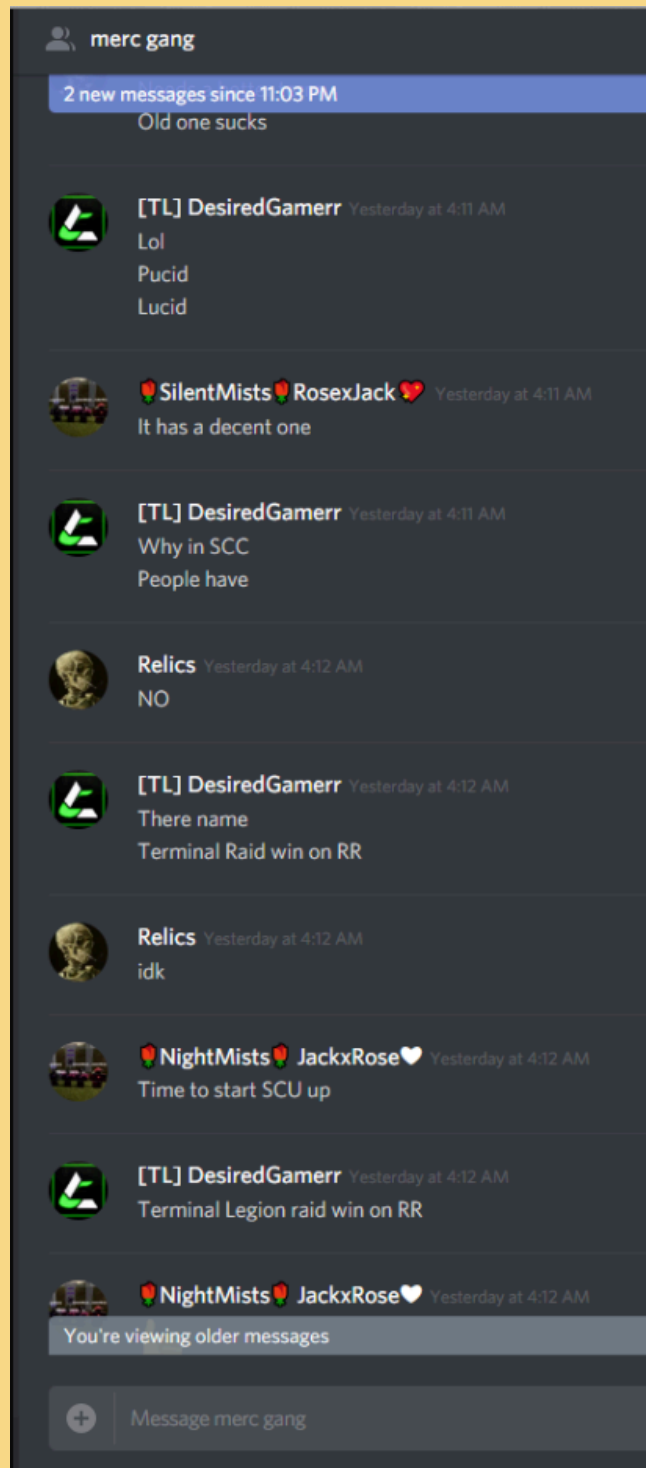

Desired posting said screenshot, evidently seeing that the degenerates he is using have other alts to get around Zeikru's prohibition.

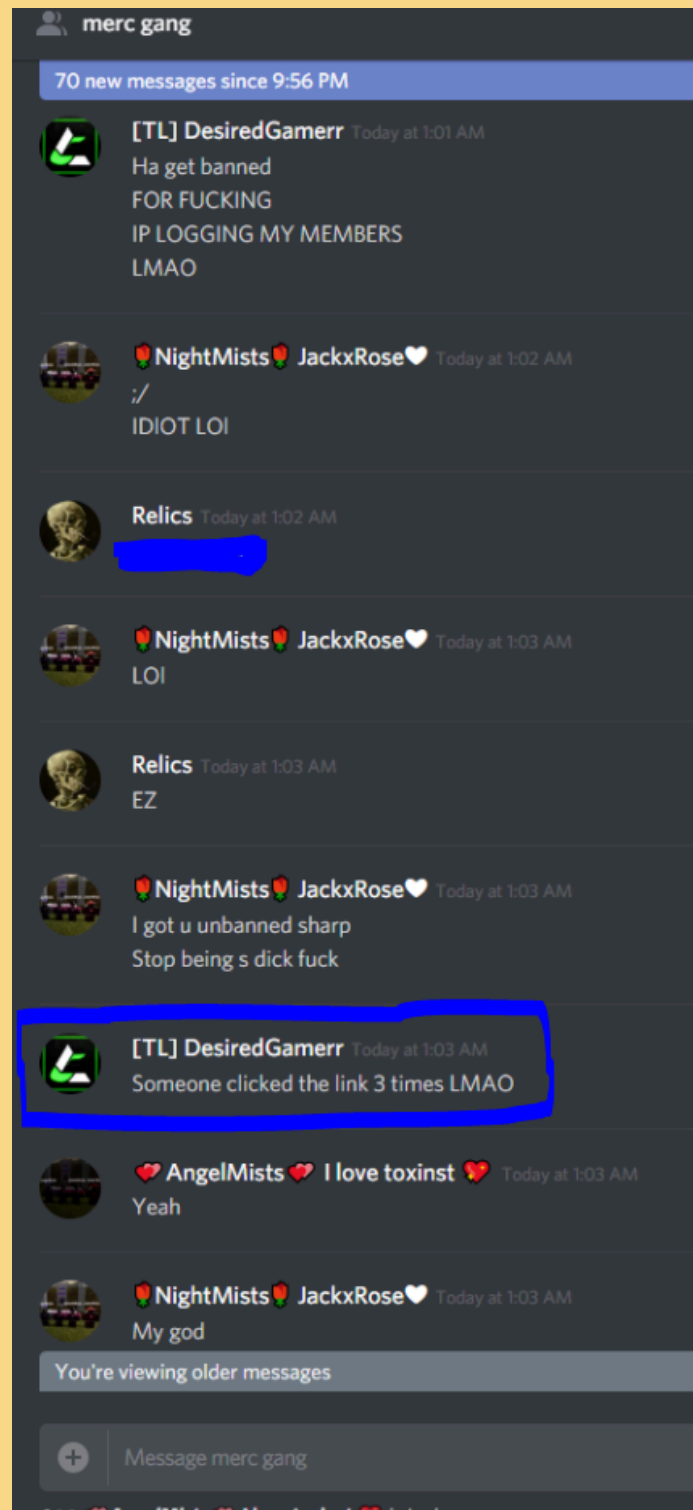

Desired expressing his fear of others discovering this arrangement, but ultimately feels the wins are worth it. This proves that he knew what he was doing and that it was wrong, and did it anyway so that his clan could win.

Desired discussing which group to war next for
assumedly easy wins with his fellow degenerates
helping.

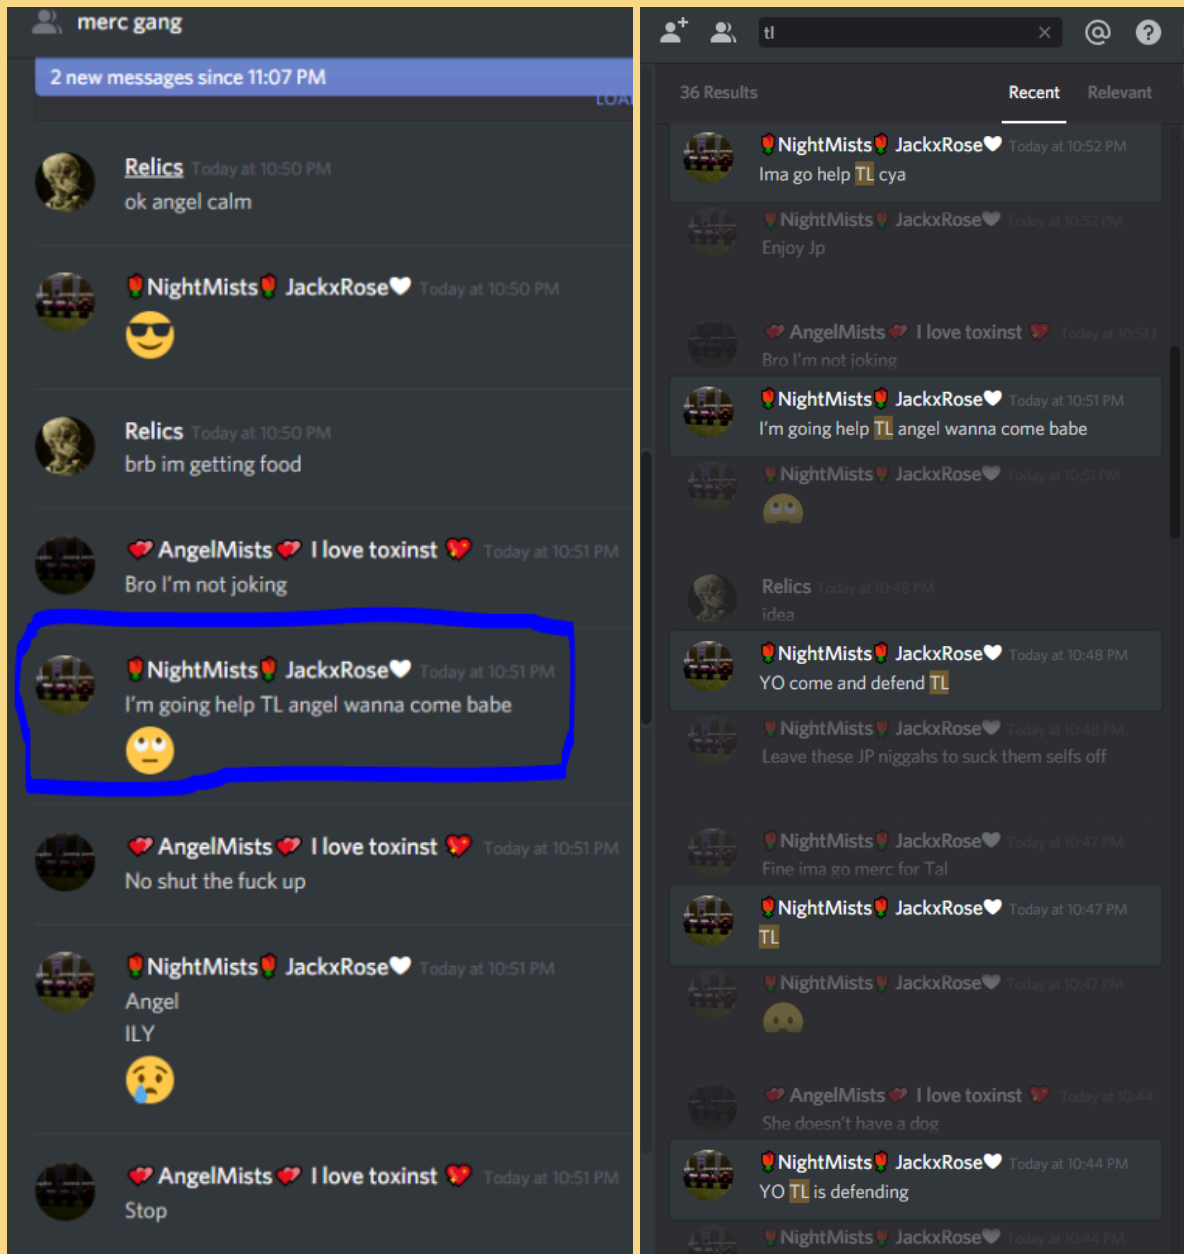

Desired's "Terminal Legion raid win on RR" becoming popular, yet the win was gained via the use of these degenerates.

Desired obviously not opposing the terrible behaviour of the degenerates he is harbouring. If anything, he is encouraging it and finds it amusing.

The following screenshots are further instances of the degenerates saying they are mercing for Terminal Legion:

CONCLUDING POINTS

It is important to keep in mind the scope of this discovery. This is merely from the discovery of one group chat, created fairly recently. If this is any indication, this has been a widespread, severe, and long-lasting contributor to the plague of the community that is degeneracy.

In order to stay as an affiliated clan, you must abide by these rules:

- Maintain 10+ members in the SCC discord
 - We regularly purge group roles that don't have 10 members in the discord
- Maintain a good standing in the community
 - This means that as an affiliate to the SCC, you must not endorse nor condone:
 - Terrorism
 - Child pornography
 - Pedophilia
 - Discord Raiding
 - Theft or scamming
 - The degenerates of the SCC
 - Exploiting
 - Any actions that can affect the community negatively

Failure to abide by this may result in your affiliation with the SCC being terminated.

Here is the criteria for maintaining affiliation within the SCC. It speaks for itself.

RULING

It is based upon this evidence that the following rulings be made:

Relics#0391 / 533781118411866115 shall be charged with:

- Doxxing
- IP Logging
- Information Spreading
- Creating bypasses

:rose:NightMists:rose: JackxRose:heart:#8585 / 546635571959824384

and

*:two_hearts:AngelMists:two_hearts: I love toxinst
:sparkling_heart:#7428 / 327835021287096330*

shall:

- Have their charges upheld and blacklists maintained, as the proof discovered further confirms crimes of which they have already been charged.

[TL] DesiredGamerr#0294 | 188618469393039360
shall:

- Not face any charges, as he was not directly responsible for any degenerate actions.

The clan "Terminal Legion" shall:

- Be unaffiliated from the SCC, effective immediately.
