## **Subject: Screening Request - The Amazing Digital Circus: The Last Act**

Hi,

I hope this message finds you well. I'm reaching out to ask if you could consider screening 'The Amazing Digital Circus: The Last Act'.

The film has been already confirmed to screen in other countries such as the U.S, Canada, Latin America, and Japan theaters from June 4-7 2026. Originally a web-series, this movie is from a YouTube independent animation studio, 'Glitch Productions', based in Sydney, Australia. It was founded on May 24th 2017 by Kevin and Luke Lerdwichagul.

'The Amazing Digital Circus: The Last Act' is the last installment of the series, and is being presented as an early-access theatrical screening. Notably, the finale episode does not release on YouTube till two weeks after theater showings, making this a unique opportunity for people to experience the conclusion before it is posted online.

The Amazing Digital Circus is widely recognised as one of the largest independent animation series online, surpassing one billion views on YouTube. It even has secured a non-exclusive licensing deal signed with Netflix and remained in the platform's Global Top 10 for two weeks. Given the large audience and dedicated fanbase, I believe there would be a strong interest and turnout for screening in [Your Country/Theater/etc].

Thank you so much for your time and consideration, I would greatly appreciate any opportunity to see this film shown locally.

Kind Regards,  
[Your Name]
