

How do I edit apps in my kit?

To edit an app in your kit, start by **click the menu with three vertical dots**  in the upper-right corner of your kit. Then click **Edit App** in the menu.

All app icons in the kit will now show a pencil icon in the corner. **Click the icon of the app** you wish to edit.

On the setup page, you can **edit the Kits Display Name** and the **view permissions** for the app. After making your edits, **click the Save & Add to Kit button**.

PROJECT 2020-03: Eng Dept Website Redesign

Duke Box

Kits Display Name*
Limited to 18 characters

Who can view in kits?

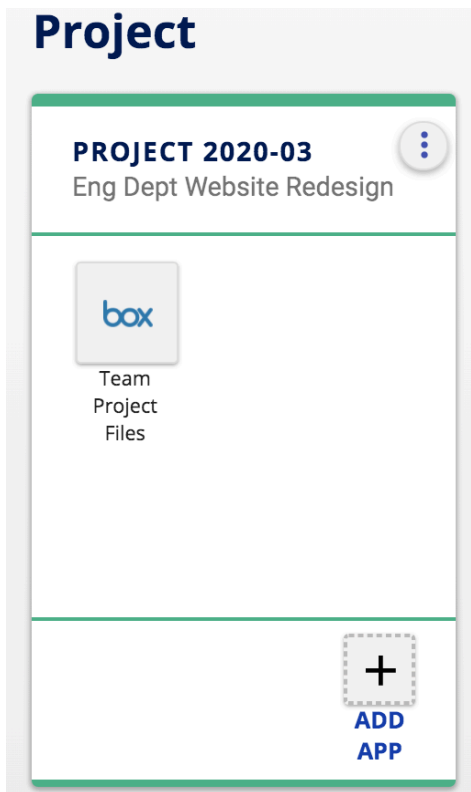

Just me

Instructors + Assistants Only

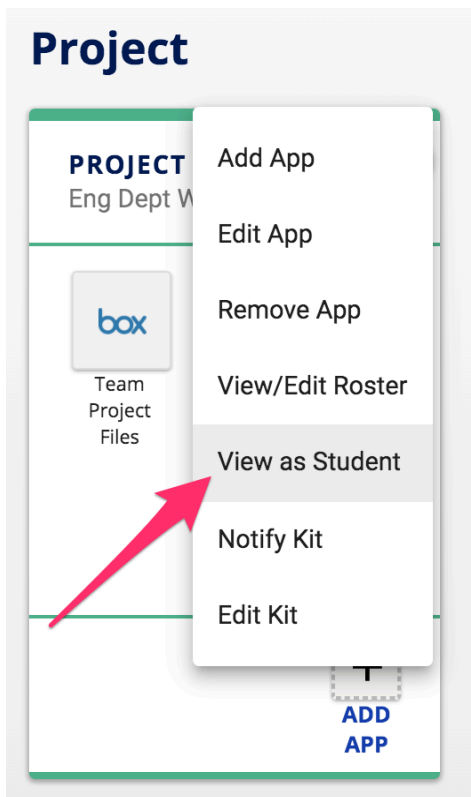

Everyone in community (kit)

[SAVE & ADD TO KIT](#) [CANCEL](#)

Your kit should now show any display name edits to the app on your kit.

Changes in permissions can be checked by using the **View As Student option** under the vertical three dot menu (will not verify permission changes from Instructors + Assistants to Just me).
