Alright little one, today you're going to learn how it feels to have a knot in your omega channel. I know this is the one you are most nervous about. You've had your mouth and ass knotted and enjoyed them, didn't you?…And you're going to enjoy this one just as much. Alpha is going to make sure of it, omega. Do you know why I saved your omega channel for last?…I've told you before that by knotting each of the holes, you are going to have a different reaction. Oral knotting is mostly used for humiliation, reminding the omega of their place. Omegas get to direct stimulation this way which is why it is used for humiliation. Anal knotting is a show of intimacy. It takes a bit to work an omega open enough to take a knot in their ass, that's why anal knotting is used as a form of reassurance. It's a type of knot that makes the omega feel safe and protected underneath their alpha. The final hole I've yet to knot is going to feel completely different. That's because it is your omega channel. Were you taught about this in school?

…I'll go over it quickly then. Your omega channel is the most important one of these knots you will learn to take. The omega channel is the one your alpha will want to use the most frequently. It feels like a pussy, warm, wet, and inviting. It clenchings around an alpha's cock, sucking it in immediately. This has a soothing effect on the omega. It allows the omega to let their guard down and submit to their instincts easily. By continuing to fuck the omega's pussy, the omegas get more lost in the sensations and fully give in, allowing their omega to take full control. The more knots you take in your cunt, the easier it will be to not give into said instincts. The first one will be the hardest which is why I'm here. I'm going to make sure that it feels good and you aren't scared by it. The other two knots weren't bad, right?

…Right. So this one isn't going to be bad either. Taking a knot in your mouth, it felt really good, didn't it?…That's right. Suckling around the thick base, swallowing everything that I gave you, you were a happy little omega, weren't you?…Yes you were. You're such a cute cum-drunk omega, it was the first time I saw you like that. Panting from cumming all over my pants like a bitch in heat while you happily sucked my knot. And then when you take my knot in your ass, that felt good too, right?…You came around it, my hand stroking you to completion as we got locked into place. You started milking my cock right away, trying to get whatever you could out of the knot. Your body knows what it needs to do, little one. You don't have to be scared. If you listen to your instincts and do what your body tells you to, then you'll be okay. I haven't steered you wrong yet, have I?…And I don't plan to. You're such a sweet omega, I don't want anything happening to you. So we are going to go slow and you're going to take your first knot like a proper omega, aren't you?

…That's my omega, so good for alpha. You trust me, don't you?…**[kiss]** And I trust you. You've been nothing but good for me. Such a sensitive little O, you're already reacting to just me caressing your cheek, tilting your face towards mine. You're going to behave yourself and listen to me, aren't you?…Such a good little O for your alpha. **[kiss]** Lay back for me. I had you in a presentation position last time, I want to see your face this time. I want to know just how cute you are when you cum wrapped around my thick knot. **[shuffle]** That's it, so obedient. You know when to listen, don't you? Want to be on your best behavior for alpha so that you can feel what a knot is like in your omega channel? You have had every other hole filled, it's natural to be curious as to what it feels like. Spread your legs for me. **[shuffle]** Good, good. Such a pretty omega channel, leaking slick for me. You're so wet, little one. Has this all just been in anticipation?

…Then you won't mind if I drag it about more, crawl between your legs just like this. **[shuffling]** That's right, little O. Keep your eyes on alpha. Watching my hard cock bobbing between my thighs as my breasts jiggle with every movement towards you. That's a good omega. You like having alpha on top of you like this, don't you?…Straddling your lap like this, you feel so good underneath me. I can tell how wet you really are. Feel it for myself. You're practically soaked, aren't you, omega?…That's good. You want to be wet for your alpha, don't you?…It means you're a good omega, that you want this. Your body knows what it needs, little one. You're just too in your head. You've always been too in your head. That's why I'm here to take you out of it. Relax for me, omega. You're going to be okay. Alpha is going to take care of you and knot you just how you need.

[wet noises start] Shhhh, it's okay, little one. Alpha's here. Alpha's doing what she needs to do. Relax, it's okay. Breathe for me, little O. Just like that. Yeah. That's good. Focus on your breathing as my cock fills you up, starts to stretch your omega channel. You've had nothing in here before, haven't you? You're as tight as a virgin, instantly gripping my shaft like your life depends on it. That's it, little one. You're doing a good job. How are you feeling now that it's inside you and I'm thrusting in and out?…It's supposed to feel good, that's normal. I told you that you would enjoy it. You've loved having your mouth and ass fucked, why wouldn't you enjoy having your pussy fucked? You're dripping for me, omega. Desperate for alpha to fill you up just how an omega needs. It feels good to take a cock in here, doesn't it?…Makes you feel full, right?…I won't even have to touch you for this, will I? Such a sensitive little O, you're going to be able to cum on my knot alone, aren't you?…I think you will be. And if you don't on your first time, that's okay. I will just have to try again and again, won't I?

Ngh, that's right. Fuck, you feel amazing, little one. Your hole wrapped so tightly around my cock, sucking me in so deep. Your cunt feels amazing, omega, mnf, such a wonderful hole to bury myself inside. To feel you stretching around me, starting to moan in pleasure as you give in. Melt into the pleasure. Submit to your instincts, omega. Alpha is going to take care of you. You can trust me, little one. You can always trust Alpha. Alpha is here to take care of you, to make you feel good, to breed your fertile cunt. Mnf, that's right. Going to knot your omega channel, going to knock you up just like this. Ngh, that's right. That's a good omega, clenching around your alpha's cock like that. Starting to rock against me, trying to match my thrusts. You're a natural at this, little O. Doing so good for your alpha, making me feel good. Ngh, keep it up. Just like that, keep doing what you're doing. It feels so fucking good.

Mnf, yes, yes, right there, mnf. Little one, you're doing such a good job for me. Yes you are. Making alpha feel so good with this amazing body of yours. Such a sweet thing for me, yes. Taking whatever you're given and wanting more. It feels so good to have a cock inside you, doesn't it?…I bet it does. This is what you needed, right? Sucking cocks feels good and taking a cock in your ass feels nice but it doesn't compare to the bliss you're feeling right now, does it?…Ngh, that's because it's your omega channel. This feels so fucking good because it supposed to. Makes it easier to submit and give into your instincts. Don't have to worry about anything when you're like this, lovely omega. You just have to focus on taking my cock and making alpha feel good. All you have to do is take it until a knot pops, right?

…Yeah, that's my good omega. You're still feeling good, aren't you?…That's my omega. So good for your alpha, responding so quickly. Ngh, that's right. Keeping being on your best behavior, laying back and swallowing my cock with your hungry cunt. You should see how it slides in and out of you, it's hypnotics. Watching how easily you take every inch of me, moaning as I reach that special spot inside you every single time. Need to make sure that you can cum on my knot alone, little one. Want to see just how precious you are, see if you can cum on my knot without any help. I know you can do. Alpha believes in you, little O. Ngh, that feels really good. You're making me so proud, moaning and rocking against me. Not a hint of that nervousness from before as you get lost to how good everything feels, the pleasure just keeps building, doesn't it?…It feels like too much but somehow it's not enough. You need more. You want to cum but know you need a bit more from alpha. Ngh, don't worry. You'll get it. You'll get it when I decide I want to give it to you. You're job is to be good and accept what you are given. Your hole belongs to alpha, doesn't it?

…That's fucking right. This hole is mine to fuck and breed as I please. Ngh, that thought excites you, doesn't it? The idea of me cumming inside, filling your cunt to the brim with my cum? Do you think you'll get knocked up? Feeling my cock twitching inside you, knot pulsing away, completely coated you in me. You can feel it starting to swell, can't you? Starting to grow inside you with every thrust inside your pussy. Tight heat grabbing at it, trying to keep it inside. You're going to be locked to me, pumped full of my cum, bred just like a proper omega should be. Should always keep you knocked up, like some of those breeder omegas. You would look so good as one of our breeder omegas. Ngh, it would mean that I would get to keep you here all to myself. Wouldn't even have to share you, little one. You like that idea, don't you? You want to belong to alpha, don't you?

…Mnf, then you're going to have to show me why you deserve to stay here. Show me that you're a good omega who can cum on a knot alone. That's the only thing you need to do in order to be a proper breeding omega and to stay here with me. Ngh, come on. That's what you want, isn't it? That's what you need? You want to be constantly knotted and fucked full of cum? Ngh, you can be honest with me. Alpha knows exactly what you need. It's why you're moaning so loudly on my cock. It feels so good to be fucked in your omega channel, to take a cock properly. Lost to your instincts and pleasure, all you can do is let out pathetic noises for me. Yes, ngh, that's a good omega. Your hole feels so fucking good. You want my knot, don't you?…Think you can take it? I'm really close, little one. Mnf, yes. You feel so good. Alpha is gonna breed your cunt, omega. Gonna give you what you need, little one. Ngh, yes I am. Gonna knot your fucking cunt, breed you just like a proper omeg-**[mutual orgasms]** You did so good for me, little O! Yes you did. Took your first omega channel knotting so well. It's not too much is it?

…That's wonderful. How are you feeling?…That's perfectly okay. Whatever you are feeling is totally valid. You were a good omega for alpha and took your knotting so well. It wasn't scary, was it?…I told you it wouldn't be. I promised I would take care of you and make you feel good. I did just that and now look at you. Adoringly looking up at me as your hole continues to milk my knot for all it's cum. You're such a good omega. Took my knot so well, I'm so proud of you. You're coming along brilliantly. You were so afraid of knots, so afraid of the horror stories told by other omegas and now look at you. Happily docile and pliant, knot in your cunt, and pumped full of cum. This is how omegas should be. All dopey and fucked out, just a stupid grin on your face as your instincts take control. Nothing makes you feel better then alpha's knot in your pussy, right?…Is it your favorite feeling in the world?

…What a cute omega you are. Should I keep you around then? You would make such a sweet little breeder and cock warmer. When you are impaled on my knot you can be holding it inside you, keeping it warm. I could breed any of your holes whenever I got the urge and you would love it, wouldn't you? Being a free-use omega for your alpha. **[chuckle]** I'm taking that noise as a yes. Seems like you would really love that, wouldn't you?…I think you're too perfect to send up to the auction. I don't think I could bear to part with such a sweet omega. You're so good for me. You are of such a high caliber, I've been impressed with you since day one. We also know that we are compatible considering how well your body responds to me, even if your brain doesn't catch up right away. I think I'll ask my boss if we can keep you around. I think you would make a good fit for our breeder program.

~ Inclusivity Stuff ~
Pet Names: little one, omega, and little o
