

ADD Production (ADD10, ADD20, ADD3M, ADD4M)

The Production course is an excellent preparation for students interested in the production of theatre. Students will explore skills and concepts required for a theatre production such as a Musical or Play. Students will be involved in the Trinity Pit Stop Theatre Company in which they will participate as an actor or as technical crew members. Students will experience acting and technical roles, research various acting styles and analyze the functions of playwrights, directors, actors, designers, technicians, and audiences.

The Drama teacher will contact you later this Spring (end of May / early June) to hold auditions. The Production class is a credit class that will be offered on Tuesdays (Grade 9) and Thursdays (Grade 10-11-12) from 2:30pm-4:30pm all year. At the beginning of Semester 2, all students will rehearse together on both Tuesdays and Thursdays after school, leading up to the opening of the Play / Musical in April.

The Production Play or Musical will be in April each year.
