

Building update - 3/12/25

We are finalizing plans with our architects and engineers to submit to the city. The timeline they gave us was being fully permitted and ready to start renovations in June. According to them, it still seems realistic to expect we'd be able to start using the building by January of 2026.

One way we can move the timeline up sooner and save A LOT of money is working together during the church work days.

Friday March 28 4-9pm

Why would you come?

- Working alongside another brother or sister is a fun and unique way to spend some time together. I have loved working alongside brothers and sisters on various projects over my years here. I got to know several of you much better than I ever would have because of those times.
- Food will be provided for those who come to work!
- You really are part of advancing the mission of the church by sacrificially giving your time and talent.

We can't do this without you!

As always, **please continue to pray for this project.** Threats to our unity, temptations to get anxious, frustrations with the process all abound. Satan wants to tear us down. Please continue to pray

- For God to provide
- For the unity of our church family
- For God to be glorified in it all
