

OAK PARK AND RIVER FOREST MATH DEPARTMENT

2025 Summer Math Packet Communication

The Mathematics Department at Oak Park and River Forest HS is dedicated to creating a highly robust curriculum that challenges students while increasing their desire to creatively problem solve and explore. To support these efforts, students enrolled in the courses listed below are encouraged to complete a math packet over the summer. Please note that some courses require that students complete the math packet by the start of school in the fall.

Have a wonderful summer, and I look forward to seeing you all in the fall.

Dr. Frey
 Division Head of Mathematics
