

Peripheral Nervous System Multimedia Project

Objective: To demonstrate understanding of the peripheral nervous system by creating a multimedia presentation over the unit and discussing it with fellow classmates.

Instructions:

1. Create a Prezi account, or log in if you already have one. It's FREE!
2. Familiarize yourself with how Prezi works, its controls, etc
3. Choose a template that looks eye appealing as a starting point
4. Refer to the specifications below when starting your project

Picture Section:

Include pictures related to the division you're discussing in your presentation. You will need a digital citizenship section for all pictures you use. Failure to include a digital citizenship section will result in an automatic ZERO for the entire project.

Facts Section:

This is where you will add facts learned from class about these divisions of the PNS.

Examples Section:

This is where you will give examples of the particular PNS division at work. Try to come up with examples that we haven't mentioned in class.

Write Notes Below:

Requirements/Rubric:

Title included _____/+3

The basics of the PNS are fully discussed; student has included facts about what the PNS is, and how it's helpful to us. Specific divisions of the PNS should NOT be included here.

1 2 3 4 5

A review is given over basic afferent and efferent systems in the feedback mechanism and is tied back into the functions of the PNS. Include the sensory and motor divisions here, but not specific motor divisions.

1 2 3 4 5

Specific Motor Divisions:

Division:	Somatic	Autonomic	Sympathetic	Parasympathetic
-----------	---------	-----------	-------------	-----------------
