

## TOOL: Continuous Improvement Template

This continuous improvement template is designed to be used by an SEL team to drive the learning process about schoolwide SEL. It follows a Plan-Do- Study-Act cycle to guide learning. The template can be completed during SEL team meetings that focus on continuously improving the approach to SEL.

### PLAN:

What problem of practice will be addressed?

#### Continuous improvement aim:

*What is hoped to be achieved through this PDSA cycle?*

#### Innovation to be tested:

*What change will be put into practice to achieve the aim?*

Describe who will be implementing the innovation:

How long will the innovation be implemented before moving to the next step?

What data source(s) will be used to determine extent to which aim is achieved?

Based on the identified data sources, what metrics would be an indicator that the innovation is successful?

### DO:

What are high-level observations from implementing the innovation?  
“To what extent did everything go as planned?”

### STUDY:

Team utilizes ATLAS Looking at Data Protocol to guide data inquiry discussions.  
*Please summarize Implications for Practice that the team generated through use of the protocol here.*

### ACT:

Team utilizes ATLAS Looking at Data Protocol to guide data inquiry discussions.  
*Please summarize Next Steps that the team generated through use of the protocol here.*
