

## Shannon, Use This Idea To Increase The Value Of Your Channel!

Hey Shannon,

Let me be **100% honest** with you.

I was watching your last video on Youtube and I saw that you have fewer followers on Youtube than on Instagram! On Youtube, it's easier to get followers and I was wondering why you are having this big problem. To attract more people you should do something for them, that they like and they want to see.

And what I would love to see on a Youtube video more than my personal pet being drawn?

Everyone would pay a lot to see their pet being drawn on a Youtube channel and I would personally make see the video at all the people that I know. If you do the perfect video and you have the correct description to convince them to buy a drawing from you, you will make a lot of money.

You can let me help you to write the description and your sales page, or you can walk away and continue to do what you are doing.
