- We will be using general handbook '25/'26 with all FAQ rulings this follows.
- Battle Ready rules apply as normal, if in doubt contact a judge
- Please play with intent, we all can make mistakes and all, so be sure to talk with your opponent about intents, if in doubt if something is possible or not.
- Any disputes hard to solve, please direct to one of the officials, and we will come and help out, any ruling from admins/judges are final.
- If a player wants to play on clock time, then this is mandatory, tho the player itself will have to provide the clock for this to be enforced.
- On round time over, dice down and talk out the ongoing round if you are at least halfway through it, else go from score from start of round, any disputes about scoring contact a judge for calling.
- If a player runs out of time, they are not allowed to do any actions anymore except for saving rolls
- For proxy models, 3d models and non-wysiwyg (what you see is what you get), do contact niels (@mr2 on discord) or on email: TODO and send some pictures of the models you are interested in knowing about if they are allowed, as a hobbyist myself i am lenient, but models still has to have correct sizes and be able to represent what they are in the game.
