Practice Task: Generate Alternative Assessment Ideas

Goal: Explore how AI can assist with developing alternative assessments for a class.

Tool Featured: Gemini

1. Navigate to [Gemini](#)

2. Paste the following prompt into the "Enter prompt" dialogue box. If you wish, edit the prompt to make this task more relevant to you.
Format: [Enter your persona], [state your aim and recipients]. [Describe the theme and structure].

> **I am a 3rd grade teacher. Suggest 5 alternative assessment ideas for my 3rd graders to demonstrate their understanding from the Life Cycles Unit. The options should cater to an array of learning styles such as written, verbal, musical, kinesthetic, etc. Students should not need any materials outside of what is typically available in the classroom.**

3. Run the prompt

4. Review the output

- Does the output address the prompt?
- Are the suggested activities appropriate?

Optional Next Steps:

- Revise your prompt as needed, adding more specifics
- Ask Gemini to generate a few more additional ideas
- Rate the response

Tip! Export the output directly to Google Docs by clicking the Share & Export icon.
