PRE-ACA - THE BLIP

Carmen was born in 2018 to parents who were dusted just a few days later. He was found by Jak who had started an orphanage for kids whose parents were snapped and she brought her in. Jak raised Carmen until she was five and they think of her as a mother.

ENDGAME

When Mey gets out of the Quantum Realm and goes to the Avengers Facility Jak tells her that she needs to find homes or even mentors for the children in her care and Mey says that Scott would love an apprentice. Jak doesn’t realize that she’s joking and says that if Scott ever returns he could be Carmen’s mentor. Carmen stays behind during the Time Heist and doesn’t participate in the final battle (because baby). At the end of the movie Scott begrudgingly takes Carmen with him and she meets the rest of the Ant Fam (trademark). ”Look Hope I have a child now too” - Scott Lang 2023
