1.1 REFERENCES AND COMPLEXITY

• Client references can include anything from descriptions, images, palettes, patterns, pictures of animals, drawings, fursuits etc. Just about all reference materials are more than accepted!

• Generally I do not charge a complexity fee (unless otherwise stated) however if your character is overly complex or your reference is difficult to sample due to shading there may be an additional period of time required to complete your project from the stated period on that particular type of commission.

1.2 AI AND GENERATIVE SOFTWARES

• None of my art is made by AI, all of it is created originally in softwares including Procreate on iPad Pro.

• Clients can use an AI generated image as a loose reference or inspiration for a character concept if they do not have any references however please note this will be used as a starting-point in design and not translated directly.

1.3 NO RESPONSE/ABANDONMENT

• In the event I do not receive a response from you within a period of twelve months after sending at least one follow up I will mark your commission as 'abandoned,' and complete your order without feedback. The files will be delivered as applicable to the platform the order was taken on or via email. (As of 3rd January 2026).
