 - The Commanding Heights of Economics
 - <https://www.youtube.com/watch?v=gfRTpoYpHfw>
- Supply chain disruption

These indicators might be results of inflation rather than causes of inflation. However, these effects further exacerbate inflation. So, for example, high fuel prices increase the costs of products.

This has much more to do with the effects of Covid. Ripple effects from Covid still.

2 big schools of thought in economics to start with

- Keynesians 20s/30s -- England
 - Big government, govt spends, govt builds, govt control, govt decides, high taxes, lots of planning, high spending, assume static conditions, assume they can control, levers economies
- Austrians 20s/30s -- Austria
 - Assume chaos, low taxes, market will control, like saving, minimal govt decision making, low regulations

Mexico's economy was developed under the PRI....

- Authoritarian Keynesian...
- Free market is new.
- What economic model does it want as a country?

Then we have a lot more...

- Anarchist
- Libertarian
- Communist
- Socialist
