they are currently doing research on language variation in languages of Australia, PNG and Vanuatu - publications to follow.

Note however that most of these are on variation in heritage languages, in urban environment.

A book on various aspects of variation in Gaelic at Embo, a village in Sutherland, is *Dorian, Nancy. 2010. Investigating variation. The effects of social organization and social setting. Oxford: Oxford University Press*. - but this already borders with studies of local varieties of bigger languages.
