Summary

Experienced front-end engineer with 5+ years of experience in building and optimizing responsive React & TypeScript applications. Skilled in developing scalable UI components, implementing Vite for improved build speed, and writing unit & integration tests.

Technical Skills

- **Frontend:** JavaScript (ES6), TypeScript, React.js, Next.js, HTML5, CSS3, SASS, Material UI, React Router, TanStack Query, Responsive Design
- **Backend & CMS:** PHP, MySQL, Nodes.js, C#/.NET, WordPress, HubSpot
- **Testing & Performance:** Jest, React Testing Library, Vitest
- **Build & Deployment:** Vite, Webpack, GitHub Actions, Vercel, CI/CD
- **Version Control & DevOps:** Git, Azure DevOps, BitBucket

Professional Experience

Front-End Engineer

MercuryWorks | Remote (May 2023 – Jan 2025)

- **Built and optimized** responsive React & TypeScript applications, improving page load times by **30%**.
- Developed **scalable UI components** using **Material UI & CSS**, enhancing maintainability and consistency across projects.
- Implemented **Vite** for improved **build speed & developer experience**, reducing startup time by **50%**.
- Wrote **unit & integration tests** with **Jest & React Testing Library**, improving test coverage and catching bugs early.
- **Collaborated with an Agile team**, participating in sprint planning, backlog grooming, and code reviews.
- Managed **CI/CD pipelines in Azure DevOps**, streamlining deployments and reducing release cycles.

Senior Web Developer

MercuryWorks | Remote (March 2022 – April 2023)

- Led development of a **custom WordPress starter theme**, reducing development time for new client sites by **40%**.
- Built **React-based plugins** for dynamic, interactive web experiences.
- Integrated **Advanced Custom Fields (ACF)** to enable non-technical users to manage content efficiently.

Senior WordPress Developer

Lapero | Remote (Nov 2020 – March 2022)

- Developed **custom Gutenberg blocks** using **ACF & InnerBlocks**, enabling rich content editing experiences.
- Optimized **SCSS, Babel, and Gulp** workflows, reducing build times and improving CSS performance.
- Managed **WordPress deployments** on **SiteGround & WPEngine**, ensuring uptime and security.

Web Developer Consultant

New Wave Creative LLC | Remote (April 2020 – March 2022)

- Developed and maintained **modern, user-friendly websites** using JavaScript, PHP, and WordPress.

Additional Experience

- **Jackson | Web Developer** (June 2020 – Nov 2020) – Built internal company websites
- **Data Driven Design | Web Developer** (June 2019 – March 2020) – Developed & maintained WordPress sites
- **Kore Design Group | WordPress Developer (Freelance)** (June 2018 – Dec 2021) – Created responsive WordPress themes.

Education

University of Tennessee – Chattanooga – Computer Science

Coursework: Data Structures, Web Development, Software Engineering Principles

Volunteer State Community College – University Studies

Certifications

- **Nextjs.org** - “Learn NextJS” course completion
- **Pluralsight** - “React 18” learning path completion
- **Pluralsight** - “Advanced React.js 17” by Samer Buna
