

◆ info ◆

◆ interdimensional ◆

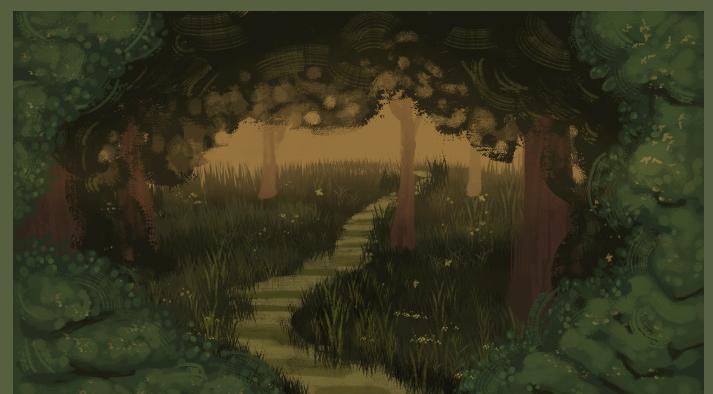

- ★ experience with MAPs or animation projects in general is preferred but not required!
- ★ in order to join you must join both the discord server and fill out the application. will be chosen a few days after the call is posted
 - discord server (13+): <https://discord.gg/VNYzVxsGSe> spectators are welcome!!
 - call video: <https://www.youtube.com/watch?v=x-hkaH5TqOM>
 - application form: <https://forms.gle/sPKM5nBZ4svgnFz1R7>
- ★ the deadline for the project will be determined once all parts have been filled. there will be a semi weekly wip check to keep everyone on track, if you miss two in a row you will be dropped
 - extensions can be given
 - it's fine if you need to drop out, just let me know asap
 - wip spams are HEAVILY encouraged!
- ★ the theme is loosely centered around being a dark fantasy/fairytale that's whimsical and mysterious!! some related aesthetics you could go for include (but aren't limited to) magic, witches, royalty, fantasy, fairy tales, nature, etc. the general look of the call video is a good starting point if you need some ideas!!
- ★ this is an OC MAP, so only personal original characters will be allowed. no fandom characters if possible, part of my goal for this project is to highlight the community's original characters and stories :)
- ★ this is also a color palette MAP, so the palette and notes below should be used as a guide for your part
- ★ all animation mediums are welcomed! PMV/animations are fine as well as long as there is some movement/low frame rate used
- ★ resolution must be 1920 x 1080 px, and cut ins/outs should be included into your part to help with editing. (codeword is the name of the ocs you'll use!!) templates can be found in the discord server
- ★ don't include program or personal watermarks to your part, i'll be adding in credits to the final version
- ★ sign up for as many parts as you can handle, i'd recommend starting with no more than two since the parts are on the longer side — feel free to collaborate on them!
- ★ no nsfw work, gore is allowed as long as it isn't severe — blood, death, and bones are all good
- ★ no art theft, tracing, OR AI AT ALL it's just not cool guys
- ★ and most importantly... have fun!

color palette + direction

- ★ the full res png can be found in the discord server & drive folder
- ★ try to stay as close within the palette colors as possible - as long as the colors stay similar and within these warm greens/browns you should be good
- ★ feel free to mix colors within the palette as well for a wider range! the bottom drawing is an example of using mixed colors
- ★ try to keep the beat of the song in mind, and make sure the lyrics are accurate to your part if you include any
- ★ if you have any questions about colors feel free to ask :)
