Agenda

FY26 Capital Investment & Project

Lora had John talk about the projects rendering

Swanton Elementary will have updates done to the outside of the building, new electrical service, New HVAC units, widening the sidewalk, new lighting under covered walkway, updating the main single door to a double door, replacing columns around the school, replacing sagging pipes, new gym floor, demo and replace ceiling that is sagging in each wing, upgrading gym bathrooms and repave parking lot. The project will take 6 months to complete and to be started as soon as the heating system can be turned off. Still working on the budget because the cost has gone up 10-15%. Lora stated she could use some of the hot lunch money to help offset some cost.

The board is still ok with the MVU and Highgate projects.
