Character suggestion rules

Last Updated: 2024-03-20

Changes in orange

1. **Nintendo, Disney (Marvel included), Vtuber & eroge characters are not accepted at the moment.** If I ever allow them in again I'll announce it on a poll post on Patreon.
2. **Max 1 submission per patron per month**, Sub Suggestions will be considered if your main suggestion isn't accepted for some reason, such as being already suggested by someone else.
3. **Suggestions don't carry over from month to month**, so if you want to suggest every month you will have to make a new suggestion each time. **Current deadlines are between the 20th & 25th of each month.**
4. **I may prioritize top supporters' suggestions** (based on patronage during the last month) **in cases of overflow.**
5. Suggestions from patrons will be **nullified if they don't have any successfully processed pledges in the previous month (New patrons will be able to suggest in the next month after joining).**
6. **I will omit suggestions that have not done very well in the past, I believe have a low chance to succeed or that I have any other issue with.** When suggesting, consider having a more well known character that you like as a sub suggestion, in case your main ends up being omitted.
7. **I reserve 5 spots for my own suggestions and I may also fill any empty spots when necessary.**
8. **Only your last suggestion in a month will be considered**, so feel free to resubmit if you want to overwrite your last suggestion on any particular month.
