**Important note upfront:** I do not in any way shape or form acknowledge Boruto & The Last Movie they made to completely undermine Hinata as a person & Shinobi that's capable of not falling down and whatnot on her own. This blog is entirely canon divergent. There will be no roleplay with the canon kids from Naruto/Hinata from the Anime Continuance. I do not budge on this nor will I provide you with said Naruto.

( I'm still searching for the artist to link them for the header pic, so far I've only stumbled upon tons of reuploads & weird twitter posts with it - if anyone finds it feel free to send me the link! I'll happily credit them for this wonderful artwork )

**The basics:** Growing up the way he did, has left many scars on Uzumaki Naruto. He has forgotten a lot of the childhood abuse he went through by the hands of some very hateful villagers (see my ptsd headcanon) but the wounds lingered. He is still the undeniable sunshine he is but I will not shy away from writing about the darkness that lingers even inside of a warm person like him. In my portrayal there will be less "shouting" & more insight. I believe that all his experiences have shaped him to be a different person. His core is still the same - sunshine as Karin had put his Chakra nature but I prefer to give him a more down to the facets approach.

Post War he will NOT grow as weirdly bulky as he is in the Boruto Show. He grows to be 176 cm in height, keeping his agile build. He is growing out his blond hair instead of cutting it (whoever thought this was a good idea hopefully regrets it). His eyes have a change to them at times. Kurama's DNA has influenced him in some ways. There will be a reddish tinge around his Iris, sometimes Purple whenever he feels a strong emotion for example.

His future has become a journey of finding more out about his mother & her legacy/clan. He traveled to Uzushio Gakure & found a way into hidden libraries that only opened upon feeling his Chakra. As an Uzumaki the place gave him access. He studied Fuinjutsu there, becoming a seal master. In Konoha his duties have shifted as he had joined the ANBU forces. A special task team with him and a few others that are in charge of retaining peace & keeping an eye out for possible threats to the united Shinobi world.

As for romance, he has not fallen "in love" with anyone per se. His crush on Sakura has long faded. He is not hard to romance though, but dense.

His demeanor is rather stubborn, yet gentle. He's way calmer than he used to be & does express his love more freely/openly for people close to him. He's learned how easy it is to lose someone during the war. He will not make the mistake of not letting others know that he cares deeply about them enough twice. As for Sasuke, his feelings are complicated. He has forgiven him. But, there is still a lot that hasn't been said yet.
